A M RECORDS

647 MEANS AVENUE

PITTSBURGH 2, PA.

June 10, 1945

Dear Mr. Sarant:

Your records are finally packed and ready for tomorrow morn's mail. I'm sorry for the delay, but I stayed in New Orleans longer than I'd intended. However I got a lot of five masters ahead for at least 20 first-rate releases. Also I finally got a good brass (parade) band on record. Enclosed is a photo of Bunk + the gang that I just got developed.

So far I've released only four records, and it will be a few months before more are on the market, but I'll keep you informed.

Sincerely yours,
Bill Russell

Infinite Cylinder: (potential + field strength)

$$\phi_r = \phi_1 - \frac{q}{2\pi\epsilon} \ln \frac{r}{r_1}$$

$$E_r = \frac{q}{2\pi\epsilon} \frac{1}{r} \quad D = \epsilon E$$

$$\text{Let } z = 1 - \frac{2}{\sqrt{\pi}} \int_0^z e^{-t^2} dt$$

$$z = R + iR_i$$

$$\text{Let } t = u \cdot z$$

$$\text{Let } z = 1 - \frac{2z}{\sqrt{\pi}} \int_0^1 e^{-z^2 u^2} du = 1 - \frac{2z}{\sqrt{\pi}} \int_0^1 e^{-z^2 R^2 u^2} du$$

Point Charge: (q)

$$\text{Potential at a distance } r \quad \phi = \frac{1}{4\pi\epsilon} \frac{q}{r}$$

where ϵ = dielectric constant.

Asymptotic Expansions: definition, properties. W+W. 151

$A_0 + \frac{A_1}{z} + \frac{A_2}{z^2} + \frac{A_3}{z^3} + \dots$, a divergent series is an asymptotic expansion of $f(z)$ for a given range of z if $R_n(z) = z^n \{f(z) - S_n(z)\}$ satisfies:

$$\lim_{|z| \rightarrow \infty} R_n(z) = 0 \quad (n \text{ fixed})$$

$$\text{even tho, } \lim_{n \rightarrow \infty} |R_n(z)| = \infty \quad (z \text{ fixed})$$

(OVER)

Error Function, definition, expansion

$$\operatorname{erf} z = \frac{2}{\sqrt{\pi}} \int_0^z e^{-u^2} du$$

complement,

$$\operatorname{erfc} z = \frac{2}{\sqrt{\pi}} \int_z^\infty e^{-u^2} du$$

$$\textcircled{1} \operatorname{erfc} z = 1 - \frac{2}{\sqrt{\pi}} \left[z - \frac{z^3}{3} + \frac{z^5}{5 \cdot 2!} - \frac{z^7}{7 \cdot 3!} + \dots + (-1)^{n-1} \frac{z^{2n-1}}{(2n-1) \cdot n!} + \dots \right]$$

$$\textcircled{2} \operatorname{erfc} z \sim \frac{2}{\sqrt{\pi}} \left[\frac{1}{2z} - \frac{1}{4z^3} + \frac{3}{8z^5} - \frac{15}{16z^7} + \dots + (-1)^{n-1} \frac{(2n-1)!!}{2^n z^{2n+1}} + \dots \right]$$

OVER

Asymptotic Expansions: definition, properties W+W. 151

$A_0 + \frac{A_1}{z} + \frac{A_2}{z^2} + \frac{A_3}{z^3} + \dots$, a divergent series is an asymptotic expansion of $f(z)$ for a given range of z if $R_n(z) = z^n \{f(z) - S_n(z)\}$ satisfies:

$$\lim_{|z| \rightarrow \infty} R_n(z) = 0 \quad (n \text{ fixed})$$

$$\text{con. thr. } \lim_{n \rightarrow \infty} |R_n(z)| = \infty \quad (z \text{ fixed})$$

(OVER)

Error Function, definition, expansion

$$\operatorname{erf} z = \frac{2}{\sqrt{\pi}} \int_0^z e^{-u^2} du$$

complement,

$$\operatorname{erfc} z = \frac{2}{\sqrt{\pi}} \int_z^\infty e^{-u^2} du$$

$$\textcircled{1} \operatorname{erfc} z = 1 - \frac{2}{\sqrt{\pi}} \left[z - \frac{z^3}{3} + \frac{z^5}{5 \cdot 2!} - \frac{z^7}{7 \cdot 3!} + \dots + (-1)^n \frac{z^{2n+1}}{(2n+1)(n!)!} + \dots \right]$$

$$\textcircled{2} \operatorname{erfc} z = e^{-z^2} \frac{2}{\sqrt{\pi}} \left[\frac{1}{2z} - \frac{1}{4z^3} + \frac{3}{8z^5} - \frac{15}{16z^7} + \dots + (-1)^{n+1} \frac{(2n-1)!!(2n-3)!! \dots (1)}{2^n z^{2n+1}} + \dots \right]$$

OVER

1. Two asymp. series valid for a common range of $\arg z$ may be multi. as with ordinary convergent series, the resultant being a new asymp. expansion.

2. If

$$f(z) \sim A_0 + \frac{A_1}{z} + \frac{A_2}{z^2} + \dots$$

$$\text{then } \int f(z) \sim \int A_0 + \int \frac{A_1}{z} + \int \frac{A_2}{z^2} + \dots$$

3. Differentiation is not generally permissible.

4. A divergent series is asymptotic if we can show that $[f(z) - S_n(z)] \rightarrow 0$ as $z \rightarrow \infty$.

$$e^z = 1 + z + \frac{z^2}{2!} + \dots$$

$$e^0 = 1$$

$$e^{.1} = +.887$$

$$e^{.5} = +.430$$

$$e^1 = +.157$$

$$e^2 = +.0476$$

$$e^3 = +.000217$$

Trigonometric Identities (products) (sums)

$$\left\{ \begin{aligned} \sin A \sin B &= -\frac{1}{2} [\cos(A+B) - \cos(A-B)] \\ \sin A \cos B &= \frac{1}{2} [\sin(A+B) + \sin(A-B)] \\ \cos A \cos B &= \frac{1}{2} [\cos(A+B) + \cos(A-B)] \end{aligned} \right\}$$

$$\left\{ \begin{aligned} \sin A \pm \sin B &= 2 \sin \frac{1}{2}(A \pm B) \cos \frac{1}{2}(A \mp B) \\ \cos A + \cos B &= 2 \cos \frac{1}{2}(A+B) \cos \frac{1}{2}(A-B) \\ \cos A - \cos B &= -2 \sin \frac{1}{2}(A+B) \sin \frac{1}{2}(A-B) \end{aligned} \right\}$$

DEAR PUSS AND AL:

I've moved abodes, and wish to state

The new domain is heaven!

The address, in case you want to know

Is 49 West 11.

Iran

ALL OF ME.

All of me, why not take all of me,
Can't you see I'm no good without you
Take my lips, I want to lose them,
Take my arms, I'll never use them.

Your goodbye left me with eyes that cry,
How can I go on dear without you,
You took the part that once was my heart,
So why not take all of me.

Death Night Act II scene III
 Come away, come away, death,
 And in sad cypress let me be laid;
 Fly away, fly away, breath;
 I am slain by a fair cruel maid.

My shroud of white, stuck all with yew,
 Oh, prepare it!
 My part of death, no one so true
 Did share it.

BELL BOTTOM TROUSERS

Oh, I was a simple maid who lived in Drury Lane,
 My master was good to me, my mistress was the same
 Along came a sailor as happy as can be,
 And he was the cause of all my misery

CHORUS;

Singing bell bottom trousers, coats of naye blue
 Climbin' up the riggin' like his daddy used to do

He asked me for a kerchief to tie around his head
 He asked me for a candle to light his way to bed
 Now I was a simple maid and thinking it no harm
 I climbed into the sailors bed to keep the sailor
 warm.

Not a flower, not a flower sweet,
 On my black coffin let there be strown;
 Not a friend, not a friend greet
 My poor corpse, where my bone shall be thrown.

A thousand thousand sighs to save
 Lay me, Oh, where
 Sad yruer lover never find my grave,
 To weep there!

Early the next morning before the break of day
 He handed me a five pound note and here's what
 he did say

"Take this my darling for the damage I have done
 You may have a daughter and you may have a son
 Now if you have a daughter bounce her on your knee
 And if you have a son send the bastard out to sea

So listen my darlings take this advice from me
 Never trust a sailor an inch above the knee.

Blow, Blow Thou Winter Wind.

Blow, Blow thou winter wind,
Thou art not so unkind
As Man's ingratitude;
Thy tooth is not so keen,
Because thou art not seen,
Although thy breath be rude.

Hi-ho sing hi-ho unto the green holly:
Most friendship is feigning, most loving
mere folly:

Then, hi-ho the holly this life is most jolly

Freeze, freeze, thou bitter sky,
That dost not bite so nigh
As benefits forgot:
Though thou the waters warp,
Thy sting is not so sharp
As friend remember'd not.
Chorus.

EMPTY BED BLUES

I Wake up this morning with an awful aching head

I Wake up this morning with an awful aching head

My man had left me with just a room and an empty bed

Bought me a coffee grinder got the best one I could find

Bought me a coffee grinder got the best one I could find

So he could grind my coffee cause he had a brand new grind

He's a deep sea diver with a stroke that can't go wrong

He's a deep sea diver with a stroke that can't go wrong

He can touch the bottom and his wind holds out as long

He knows how to thrill me and he thrills me a day

Lord ditto

He's got a new way of loving almost takes my breath away

Lord he's got that sweet something and I told my gal friend Sam

From the way she's raving she must have gone and tried it too

When my bed got empty make me feel awful mean and blue

Ditto

My springs are getting rusty sleeping single like I do

Bought him a blanket to warm his head at night

Then I bought him a mattress so he could lay just right

He came home one evening with his hair ^{SPIT} way up high

What he had to give me made me wring my hands and cry

He gave me a lesson that I never had before

When he got thru teaching me from my elbows down was sore

He boiled my fresh cabbage and he made it awful hot

Ditto

Then he put in the bacon it overflowed the pot

Then you get good lovin' never go and spread the news

Gals will double cross you and leave you with those empty bed blues

DIRECTIONS FOR PATIENTS:

1. Smear inside of cap with jelly.
2. Insert as directed.
3. Allow cap to remain in place until the following morning. Before removing, douche with about one quart (half a bag) of plain or soapy warm water, and then douche with the other half after removal of cap. The cap may be removed soon after use, if desired, providing a thorough soapy water douche is taken before its removal. (If douche is not employed, the cap should remain in place for at least twelve hours after use.)
4. Cleanse cap in soap and water, rinse in clear water, dry thoroughly on both sides, dust with talcum or corn starch and place in a container used for that purpose only. (Vaseline or other greasy substances spoil the rubber and should not be used with the cap. Always use jelly given you.)
5. Keep cap in a cool place.

IMPORTANT

1. The success of the method prescribed for you depends largely upon your following the instructions carefully. Carelessness and indifference in its use may result in failure.
2. Please make certain that you know how to use the pessary and that you use it each time. We are unable to help you in case of failure.
3. The pessary *cannot* get lost in your body, and is in no way harmful.
4. Following a planned pregnancy return to see the doctor six weeks after delivery to be refitted, as the size may have to be changed. If you have a repair operation return afterwards for a refitting.
5. Before the end of one year be sure to bring your pessary and let us examine it.
6. If the doctor has told you to come back for a check-up *be sure* to do this to insure your safety in using the cap.

7. We want to know how you are getting on. Will you please let us hear from you every six months? If you can come in bring your pessary with you for examination.
8. When you need to see the doctor always make an appointment. Bring your pessary with you.
9. When you need more material no appointment is necessary—come in during clinic hours. If you send for it, give full name and address, and the old address if you have moved, also your own case number. Send a check, money order or stamps with your order. We CANNOT SEND C.O.D. PACKAGES. Add 10 cents to the regular charges to cover carrying charges.

THE GOLDEN APPLES OF THE SUN
From "The Story of Wandering Aengus"
by W. B. Yeats

Though I am old with wandering
Through hollow lands and hilly lands,
I will find out where she has gone
and kiss her lips and take her hands,
And walk among long dappled grass
and pluck till time and time are done,
The silver apples of the moon and
the golden apples of the sun.

Alas poor lady you do me wrong
To bid me so deservingly
When I have lov'd you so long
To slight me in your company
Greenlee in ^{all} my delight
" was ^{all} my joy delight

THE HOUSE I LIVE IN.

What is America to me? A name, a map, the flag I see.
A certain word democracy, What is America to me?

The house I live in, a plot of earth, a street,
The grocer and the butcher and the people that I meet
The children in the playground, the faces that I see,
All races, all religions, that's America to me.

The place I work in, the worker at my side,
The little town or city where my people lived and died
The howdy and the handshake, the air of feeling free
The right to speak my mind out, that's America to me.

The things I see about me, the big things and the small
The little corner newsstand and the house a mile tall
The wedding and the churchyard, the laughter and the tears
The dream that's been a-growin' for 150 years

The town I live in, the street, the house the room
The pavement of the city or a garden all in bloom,
The church, the school, the clubhouse, the million
lights I see,
But especially the people, that's America to me.

LET'S ALL DRINK

— Lets all drink and drain our beer,
In a hundred years we wont be here (2)
Hatchet and syckle and saw and board
Antony, Mary and all the horde,
Hatchet and syckle and saw and knife,
Come here Mary and be my wife!
I will not, I will not wed a soldier
Because a soldier is not for me (2)

LITTLE MAN SITTIN' ON A FENCE

Now once there was a little man sittin' on a fence,
Thinkin' and a-thinkin' about the current events,
And helpin' win the war with his chin on his fist,
Tryin' to tell a Nazi from a Communist
He was tryin' to see the war from every point of view,
Cause after all a Nazi is a person, too
Chorus: While the Soviet Union goes rolling along.
Then the little man looked on his left and what did he see
But a whole crowd of people shoutin' victory
There were men in khaki, there were kids in schools,
Girls in overalls all stuffed with tools

Then the little man said as he wrinkled his brow
They should only get together somehow
If they'd take the advice of a man like me
Why they'd both get together and they'd agree
Then he sat down with his reason and rhyme
Took a pen and wrote a great long letter to the Times
He was sittin' very pretty and feelin' very sage
Readin' Westbrook Pegler on the feature page
When out from behind him came Martin Dies
And pulled a big swastika over both his eyes
Now he don't have to worry what it's all about
Cause he and Gerald Smith got it all figured out
Oh: And the United Nations go rolling along

Then the little man said with the big crocodile tear...
"I'd like to help but I'm so god-dam safe up here"

Chorus:

Well now over on his right in their great big cars,
Was a bunch of fat men puffin' big cigars,
And they all were shoutin' with great broad grins
About what to do with Stalin when Hitler wins
Then over in a corner under a table
He saw a man makin' faces at a union label Chorus

Mary had a little lamb
This fleece was white as snow
And every where that Mary went
This little lamb went too

MAKE WAY FOR TOMORROW.

Verse:

Listen all, this is Vic'try calling "Make Way"
Make way now for that better day ahead!
Let the echoes wake up and take up the cry,
Till it rolls like the thunder on high.

Chorus:

Today's the day to make way for tomorrow, ---
Strike up the band for a brand new tomorrow
Out of the blue comes the call, let there be
music for all, let's have an end to despair
over here, over there.

Spectral Sensitivity of Type 3 Cell

WESTON ELECTRICAL INSTRUMENT CORP.
NEWARK 2, NEW JERSEY, U.S.A.

GENERAL INSTRUCTIONS - WESTON PHOTRONIC* CELL

MODEL 594 - TYPE 3

The Weston PHOTRONIC* Cell contained in this package is a dry plate type of photoelectric cell. It is very rugged, is not easily damaged and can be exposed to intense light—even sunlight, provided the infra-red, or heat rays, are filtered out so that the temperature of the cell will not exceed the value given below.

Do not subject the cell to external voltage as it may be burned out nor to a higher temperature than 60°C. (140°F.)

CURRENT OUTPUT

This cell will deliver about 3 microamperes per foot-candle light intensity averaged over the entire surface of the cell, or about 260 microamperes per lumen. The cell is of low resistance and may be connected directly to an instrument or relay. No batteries are required. Merely connect instrument or relay in series with the PHOTRONIC* Cell.

MOUNTING

Model 594 Cells can be furnished with threaded terminals or with prong terminals which will fit into the standard UX type of tube socket. If threaded terminals are supplied the cell can be mounted by means of a substantial screw furnished on the back of the case. Have the cell face the light source. If it is

If of herself she will not love
Nothing can make her. The devil take her!

1B5(2)

September 5, 1942.

LT. COL. O. C. MAIER, DIRECTOR, SIGNAL CORPS LABS. **f.**
Memo to: Captain H. R. Stryker, Officer-in-Charge,
V. H. F. Installation Division, S. C. G. D. L.

Subject: Resignation of Alfred Sarant, Jr. Radio Engineer.

1. I hereby tender my resignation from the Signal Corps Laboratories effective 4:00 P. M. September 5, 1942.

2. This is the result of my convictions that the Signal Corps Laboratories does not utilize the abilities and energies of its employees in a manner consistent with the war effort. Furthermore, there exists an attitude on the part of representatives of the U. S. Army at the Laboratories which is in direct contradiction to the principles set forth in the Constitution of the United States and to the laws enacted by Congress. The succeeding paragraphs outline several of the conditions tending to influence my resignation.

3. Misrepresentation of the Status of Research Projects

While employed in the Radio Direction Finding Section I was present when high-ranking visitors were shown incomplete research and development projects at Field Area #2 by Mr. R. I. Cole, the Section Chief, or by Captain C. R. Dunlop, the Officer-in-Charge.

On a number of these occasions Mr. Cole and Captain Dunlop made erroneous statements as to the progress which had been accomplished on these projects. In every case a glowingly optimistic picture was painted. In at least two specific instances there were witnesses present.

4. Technical Incompetence

Technical incompetence among section chiefs and officers-in-charge is a prevalent condition at the Signal Corps Laboratories. Mr. R. I. Cole, Chief of the R. D. F. Section, is an illustration. Several of Mr. Cole's ideas were condemned as worthless by competent engineers. Disregarding their opinions, he insisted that his ideas be carried out. As a result, the Panoramic Direction Finder Project and the T. W. A. Direction Finder Project were delayed several months. His ideas were subsequently proven wrong in actual experiment. The above can be attested to by witnesses and by written proof.

5. Waste and Idleness

In any large organization a certain degree of incompetence may be found.

September 5, 1942.

2.

However, in an organization geared to war production and guided by the U. S. Army, a lesser degree would be expected. Contrary to this, the degree of inefficiency and incompetence resulting in waste and idleness is appalling.

A striking example of idleness is afforded by the entire Engineering Service Section. This section consisted of about 70 engineers and mechanics who were in the section for a period of from three to six months, during which time only 5% of their energy and ability was utilized and this mainly in non-essential work. During this time there was neither equipment nor facilities, nor desks available.

Many of the men employed in this section had given up fine positions to aid in their country's war effort and, as a result of the long period of enforced idleness, have undergone a tremendous lowering of morale and lack of confidence.

That this situation in the Engineering Service Section required concealment was evidenced by the fact that on a number of occasions the men were told to go for a walk when some official (from Washington) was about to show up for an inspection.

I have frequently seen a number of very highly paid civilians - CAF 16-12 - in a certain section doing nothing or perhaps reading a newspaper. These men have been hired within the past six months, were formerly salesmen in the automotive industry, are not technically trained, yet are placed in a supervisory capacity and in authority over men who are thoroughly competent and trained.

I have seen dozens of people writing personal letters during working hours because they had nothing else to do. In one of the sub-groups of Meteorological Section a group of about ten Junior Professional Assistants have been completely idle for an average of about four months. When one of the J. P. A.'s in the Sound and Light section, after having been idle for this period, voluntarily did some useful work for another group, she was severely reprimanded. In an attempt to offset this obvious idleness, useless work has been assigned.

This same condition exists in practically all sections where J. P. A.'s are employed.

6. During August, 1942, most of the personnel of the Engineering Service Section were sent on a five-day trip to Detroit. Orders read "in connection with research and development projects." The men did no work while there and, in my group, 11 of the 13 men were not even required to report to an office but spent their entire five days there in amusing themselves.

September 5, 1942.

3.

7. Infractions of Civil Service Regulations

The following examples of infractions are cited: On several occasions a number of the men of the Engineering Service Section were allowed to go to the Ball Park nearby to play baseball during working hours.

On two occasions members of the Engineering Service Section were observed repairing the car radio of one of the officers and one of the civilian heads of the section during working hours.

8. Relations between Army Officers and Civilians

One of the main contributing factors to the extremely low morale existing at the Signal Corps Laboratories is the attitude of the Army Officers towards the civilians. The Lieutenant in charge of about 70 men in the Engineering Service Section handled the men as though they were school children. He was heard to say to a competent and trained engineer "If I tell you to go out and play ball or dig a ditch you'll do it!"

On another occasion this same officer approached me, accompanied by another Lieutenant and shouted "On your feet when you're introduced to an officer!" before the introduction occurred. This flaunting of power and authority is typical and has caused the civilians to resent the Officers-in-charge.

9. Union Discrimination and Intimidation

In January, 1942, Mr. George Curran of the Federation of Architects, Engineers, Chemists and Technicians, C. P. O., accompanied by me and by another laboratory employee paid a visit to Lt. Col. O. C. Maier for the purpose of discussing employer-employee relations at the laboratories.

The following day, I received a visit from Mr. L. V. Gattan, Associate Radio Engineer, my immediate superior, who attempted to dissuade me from my ideas of trade unionism. This was done in the presence of three witnesses. I was next paid a visit by Mr. R. I. Cole, my section chief, who:

1. Accused me of being a union organizer
2. Told me that the only legal union recognized at the Laboratories was the N. F. F. E.
3. Told me clearly that if I did not cease "this union business" he would make things difficult for me.

This was done within earshot of two witnesses.

September 5, 1942.

4.

Mr. Cole did succeed in making things difficult for me. After agreeing to honor a transfer for me out of this section, he told me that I must see the personnel Officer Lt. Ruska, and take what he had to offer. This was an incorrect procedure in handling the transfer.

The reason for Mr. Cole's insistence on my seeing Lt. Ruska was that he and Captain Dunlop had previously contacted him and requested him to threaten to fire me, which he did and which by this threat, force me to accept a transfer to a section was unacceptable to me.

I contacted the Director of the laboratories and requested him to honor a transfer for me to the Raiair Laboratories, inasmuch as a section chief there had requested my services. The Director refused my request on the ground that he could not afford to release a valuable man, or men. I was transferred to the Engineering Service Section where for over three months there was virtually no useful work done.

On August 28, 1942 I requested a transfer out of Engineering Service Section (which has become V. H. F. Installation Division) with the resolve that if I could not obtain useful work of an engineering caliber at the laboratories, I would resign and obtain employment elsewhere, pending the receipt of commission in the armed services which I had applied for.

In keeping with the policy at the laboratories of using intimidation as a substitute for ability to handle personnel correctly, soon after I stated my intent of resigning, I was brought before a Post Intelligence Officer by Majors Dunn and Urhane and "grilled." The entire tenor of the questioning was such as to imply:

1. That I am a person of dangerous and subversive past.
2. That I had access to secret and confidential information and had been divulging same.
3. That they would see to it that I never received a commission. They insisted that I divulge to them where I had applied for this commission.
4. That I was obtaining this commission through political influence in Washington.
5. That an F. B. I. investigation of me would take place if I attempted to resign as I am now doing.
6. That I would be drafted immediately upon resignation.

10. Training of Women Personnel to Replace Deferred Employees

Personnel in the J. P. A. groups were placed in the laboratories expressly for the purpose of receiving training so as to relieve and release men who were deferred for a six months period until this training could be accomplished. To date, very little training has been accomplished and when these men are drafted, they are not competently replaced.

September 3, 1942.

S.

Conclusion

As a patriotic citizen of the United States and one who is interested in all-out war effort, I cannot, in clear conscience, remain at the laboratories under existing conditions. I feel that with my engineering training and ability ~~and~~ I can be of more value to my country and to the war effort elsewhere. This is especially important to me since I have a brother serving in the U. S. forces in England now, a second brother who is entering the Naval Air Corps and a third brother who is entering the Coast Guard service.

Respectfully submitted,

Alfred Sarant,
Radio Engineer.

23 Colony Street
W. Hempstead, New York
September 23rd, 1942

Lietenant J. T. Freeman, Personnel Officer,
Signal Corps General Development Laboratories,
Fort Monmouth, New Jersey

Dear Sir:

On September 19th, 1942, 5:00 P.M., I received a letter from you dated September 17th, 1942 which informed that I was terminated with prejudice effective September 4th, 1942 on charges of having refused to obey travel orders. I wish to take this opportunity to answer the charges brought against me.

I have attached to this letter a copy of the travel orders which were given to me on August 28th, 1942. On August 27th, 1942 I asked Captain H. R. Stryker, Officer-in-Charge in my section, for an intersectional transfer. My intention as stated to him at that time was to obtain work of a caliber commensurate with my engineering training or failing that, to resign my position. His refusal was given to me on August 31st, 1942. Since my travel orders read "You will proceed on or about August 31st, 1942", I decided to settle the matter of the transfer or resignation before going to Detroit rather than go to Detroit and then resign, a procedure which would have resulted in many wasted dollars. Captain Stryker gave me permission to appeal his decision to the Director of the Laboratories provided I first saw Major Jack Dunn, the Administrative Officer, ~~XXXXXXXXXXXXXXXXXX~~

I did this at once and found ^{THAT} the Director was away on business. I stated my request to Major Dunn and received no definite answer. On September 2nd, 1942 I notified Major Dunn of my definite intention of resigning as soon as I could submit a letter of resignation. I was delayed in doing this on September 3rd, 1942 by being called before the Post Intelligence Officer, and on September 4th, 1942 by being called before Major Cameron. On both these days I reiterated my intention of resigning. On September 7th, 1942 I personally submitted to Major Dunn my letter of resignation, effective September 5th, 1942, a copy of which ~~XXXXXX~~ is attached hereto. He would not give me a receipt for this letter, so I sent it in by registered mail on September 9th, 1942. *to the Office of the Director*

On September 16th, 1942, I received from Major F. F. Urhane, Executive Officer, a notice of suspension, effective September 4th, 1942. On September 19th, 1942 I received your letter of termination with prejudice, effective September 4th, 1942.

To recapitulate:

1. The order s which I received were worded " You will proceed on or about August 31st, 1942", and because of this wording I could not possibly have disobeyed them as far as time of departure was con-

My being terminated with prejudice subsequent to my
having resigned seems to be an illogical and unfair step which
should be replaced by some action on my letter of resignation,
accepting it either with or without prejudice.

Yours truly,

Alfred Salant

Dear Sirs:

My wife received a maple crib and mattress on November 20. In attempting to assemble the crib I found that there were several parts missing, which could not be located anywhere in the packing material. Since there were no assembly instructions included with the crib, I cannot say definitely which parts are missing. However, it seems probable that the following items are missing:

- 1) The four rods on which the sides of the crib ride up and down.
- 2) The four brackets which would support the top ends of these rods.

In order to eliminate all possibility of error, I am returning with this letter all of the hardware which was received with the crib, except for two of the 10 $\frac{1}{2}$ inch brackets which were already fastened to the crib. Also enclosed with this letter are the bills which were on the two packages.

Kindly send me as soon as possible a complete set of hardware for the crib to replace the incomplete set which I am returning. May I impress you with the urgency of this matter by hoping that you will enjoy smoking the enclosed cigar.

Very truly yours,

Alfred Sarant.

5:25

Dearest Dearest -

I'm wasting time - I'm procrastinating - I should
be on my way - running - but I had to come here to
get some stuff I left and now it's late and maybe
you'll walk in any minute and I love you - and
I'd rather have you smell my body Chanel No. 5
than either Nanny or Papa and why don't you
come - you're not coming home before dinner -
you're nice - you're beautiful and you're
so very wonderful and warm -

Oh gee - see ya -

HAVE BEEN BETTER. I LOVE YOU
THREE WEEKS AND WORTH MORE.

4:00

May 8th 1945

Dear Honey -

Nice day - woke up at noon still kind of tired so I took it easy, musing around - a bath, my slacks, some laundry, little cleaning up, lovely Brahms, radio, luscious coffee and now I'm considering pulling myself together and going home. Armistice will be signed at 6 p.m. - lovely - seems that some Russian said he discovered a "bullet riddled body" in some ruins that might be Hitler. Wonder what time you left - wonder what time Joe said good-bye to me - wonder how you are - miss you. What else? When are you going to fix the carpet sweeper somehow? Where have you hidden the cigarettes - I'm on my last one. Bum. Religion is going full blast on the radio. All kinds.

I'll go home now and call you -

P.

12-12

12
D
Dearest

Oce - it was ten o'clock. I'm sorry, honey, didn't hear a
thing until then. Nothing much to tell you. Batch and

I've played records, cleaned up, dressed and how

we will leave and I will see you later. You owe

me a kiss -

Good help you until you give it to me

all my love

S.

Thursday night.

Dearest Alfred.

A few lines to tell you that I was very much disappointed you did not come out today.

I am really worried about you.

Your father called the office to day, to find out how you were, and they told him that you were sick, and decided to come, and visit you at your apartment, but was surprised ~~but~~ to find you there either.

I still think that you must have been asleep, and did not hear the bell ring.

Needless to say that he was very much disappointed not to find you home.

He told me he was looking forward to visiting you.

I am worrying about you.

If you are not feeling well
please come out, and I will
get you well. Or if you cannot
come, I will come over and
take care of you.

I am still worrying you a lot -
mother.

Nothing new around here.
A little while ago, I heard, on
the radio a South American
program, and the most beautiful
guitars playing, and singing.
I am sure you must have
heard it, too.

I hope you are well, and
try to come out, soon.

Any way please let me
know how is everything, with
you.

With love,

Mama.

Spent this morn

Mr Alfred Sarant
65 Morton St.
New York, N.Y.

11:00

Gee, how are you honey? Wonderful morning - Corn Flakes,
banana, cigarette, beds, dishes, Debussy, news, bath,
dress, now. And of all the beautiful useful stuff
you have in the house this is the only piece of
paper I could find. It's so big - and I don't
have so much to say... I'm very happy. I'm
going to bring you sheets - maybe your
laundry if I have time - maybe - I'm
going to be home by 10:30 or best - socializing -
pleasing. I can think of things I'd rather do -
people I'd rather be with - and stuff.
I wonder - remind me to tell you that I wonder -
Sometime.

IT'S SUCH A BEAUTIFUL DAY!

and you have brown eyes

like you.

CONDITIONS

This receipt is subject to final payment to the Company of the check or other instrument tendered.

This is the Company's official premium receipt and is not valid unless countersigned by the Company's Manager or Cashier authorized to collect the payment shown.

ELECTION OF DIRECTORS

The Annual Election of Directors of the Company is held at the Home Office of the Company on the second Wednesday of December of each year, from 10:00 A. M. to 4:00 P. M. Every policyholder paying at least one hundred dollars per annum in premiums, or annuitant entitled to an annuity of not less than one hundred dollars per annum, shall be entitled to one vote; and every person whose life is insured by a policy, the legal reserve on which at the end of the last policy year amounted to one hundred dollars or more, shall be entitled to one vote for each even hundred dollars of the amount of such reserve. Such policyholders are entitled to vote in person, or by proxy, or by mail.

Independent nominations may be made by groups of policyholders pursuant to Section 198 of the Insurance Law of the State of New York, at least five months before an election.

Anyone desiring any further information regarding elections may address either the Company at No. 50 Union Square, New York, New York, or the Superintendent of Insurance, Albany, New York, under whose supervision all elections are conducted.

Please notify the Company of any change in your address

Sweetie-pie.

Dishes, bed-room, shirts into drawers, letters
Thoughts of you, of us, purring - AND
Carlos Montoya on Calcom Dodgers - just
by luck too - might have missed it.

Wonderful.

Now I'm going to get dressed - thought
I'd do something about the pictures today
but no negatives and I want you to
mark them - write or write out me.

And I love you and I'll see you a
very dinner as soon as I know.

P.

And send out these pictures if you like or I'll
tear them up and throw them out.

12:20

Nothing new - I'll probably call you
later, dear. Made a list of
Betty's records - filed under
'B'. Not a cigarette any-
place - happy? Phooey.
Bye-bye - love ya.

P

Hey - if you happen to come
home for lunch - leave me a
note - huh? ---

MINA B. ROSS
222 EAST STATE STREET
ITHACA, NEW YORK

26 April 1945

Dear Al;

Altho why I should call you "dear" under these circumstances is a mystery, and only confirms my impression that many social customs have out-lived their meaning. (Ref. "Babbitt and the Bromide" Danny Kaye).

Could I have enclosed the enclosed in a post-card I would have.

Don't forget that an isolated instance proves nothing except, perhaps, the exception; and that most people DO NOT LIKE some people who are ALWAYS RIGHT.

Console my child for me, please, and tell her that I still have the utmost confidence in her, and as for you, my smart aleck, I send you love and HISSES.

Mina

U. S.S. Franklin CV-13
c/o F.P.O.
San Francisco, Cal.
Tues. Jan. 23, 1945

Dear Al,

Seems that I have misplaced the little card on which I had Bill's address and the address of the silver shop which you gave me that night at the Castleholm. Incidentally thank you for taking us to dinner that night. Frankly I couldn't go steady on that type of stuff. Its more the novelty than anything else. Would you please send me Bill's address again? Also would you please send me your sister's ~~xxxxxxx~~ address as I would like to drop her a line sometime.

As a point of interest, a letter mailed ordinary first class takes three months to reach me under normal circumstances. A letter mailed "air-mail" takes from 6 to 14 days to reach^{me} I want to hear from you soon and I'm trying to tell you that you should use air mail.

I have been doing some investigating on this idea of mine of getting an M.S. if and when this is over for me. When you write could you give me some idea of the work you covered thus far? I want to get some idea of just what one is expected to pass and also what its all about. Maybe I can make^{it} and maybe I can't...who knows?

Another thing...this idea of ~~gax~~ going into business^{for} our own after the war. Its the only way to make money, Al. I'm absolutely convinced of that. I'm going to keep ~~my~~ ear to the

ground along these lines. First however I would like to get more practical experience, say a couple of years ~~in~~ after I get out. If you have any further ideas along these lines what say we discuss them? There is plenty of time to do this sort of thing right now I think.

That's about all I have to say right now. Connie and Suzie are both very well. Suzie is beginning to eat ^{out} of a spoon...important news to me. Connie is taking up skiing now with her father amidst two foot snow falls and sub-zero weather.

Regards to your family, write soon!

Yours,

Merry (Jins)

MR. ALFRED SARANT
65 MORTON ST.
NEW YORK CITY 19
N. Y.

Cree, I wasn't a very good kid today.

No dishes - I had a long list of

Things to do and on my list I

had a nap - so I decided to

take the nap first and get it

out of the way.

Now I've got to leave -

What about supper? Spargo

is coming to my house after

dinner.

Hope I'll see you.

Love to you.

It is Hereby Mutually Agreed by and between 65 MORTON ST. REALTY CORP.
and Alfred Sarant. parties to the annexed lease
dated September 19, 1943. . . . and expiring September 30, 1944.

That the lease of said apt. 6-1. . . and the term of years as therein stipulated, be extended, and
the same hereby is extended for the further term of one (1). year from the
1st. day of October, 1944. . to the 30th. day of September, 1945. at the annual rent of
Five Hundred & Forty (\$540). dollars, lawful money of the
United States of America, payable in equal monthly payments in advance on the first day of each and every
month during said term, and in all respects upon the same covenants and conditions as in the said lease expressed.

In Witness Whereof the parties to these presents have hereto interchangeably set their hands and seals this 1st day
of August 19 44

Scaled and delivered in presence of

It is stipulated that if the O. P. A. through the Federal Price
Administration or any other Federal Agency that might have
jurisdiction thereof, allows the landlord to increase the present
maximum rental on the within demise apartment, which
maximum rental is at present the rent prescribed in this lease,
the tenant hereby agrees to pay this increase upon notification
of said event by the landlord. It is further agreed that this
increase is in no event to exceed 10% of the rental of the
apartment.

 THE RULES AND REGULATIONS CONTAINED HEREIN

RULES AND REGULATIONS

13. Provisions of \$10.00 and upwards may be credited subject to the satisfaction of the said regulations of the Trustees. These credits shall be at liberty to reduce any part of any deposit, or which may be deposited, returning all or any part of any deposit, or depositing the same in any other bank, or in any other manner, without notice to the Trustees. The same shall have been paid to the depositors at his failure operating on the Bank's credit. All deposits made by or in funds receivable at par by cashed books in New York City.

AD deposits and payments shall be entered in the books of the Bank and a passbook shall be given to each depositor in which such entries shall also be made.

Each passbook must be presented whenever a deposit or withdrawal is made. All payments to any person producing the passbook shall be valid payments to discharge the Bank.

2. Each depositor shall, on making the first deposit, be required to furnish such information as the attending officers may deem necessary for proper identification and for the security of the deposit, and shall also be required to subscribe an agreement to be governed by the By-Laws and regulations of the bank.

3. Withdrawals may be made personally or by order in writing at the discretion of the power of attorney duly acknowledged, but no withdrawal will be allowed at any time unless the pass-book issued by the Bank is presented.

[illegible]

accessory to the bank. The bank may require that some kind of collateral, consisting of a pledge of securities, be furnished in the case of an exceptional circumstance, as of paying for a bank check. But the bank is not required to do so, and it is a banking law firm before such double-check is to be issued or such payment is to be made, and may also in its discretion, require a bond of indemnity of a surety company with liability to it, in an amount to be determined by it, not to exceed, however, the total balance of the account, which may be required to be issued by the bank to the bank, and may also require that the bank be notified of the payment of the bank, that such person will indemnify and hold the bank harmless for having issued such passbook or for having made such payment.

b. The depositor alone is responsible for the safekeeping of his passbook and shall give written notice to the Bank immediately if it is lost, stolen or has otherwise come into the hands of some person not entitled thereto.

Any payment made in good faith, either before or after the death of the depositor, to any person producing the passbook shall be a valid payment to discharge the Bank.

8. All notions in relation to the deposits or depositors, posted exceptionally in the Bank shall be deemed and taken to be actual notices to each depositor. Any amendment to the By-Laws or rules and regulations of the Bank shall be binding upon all depositors.

7. All accounts on which there shall have been no deposit received or withdrawal made or where no entry of interest has been made in the passbook for twenty years in succession shall cease to draw interest thereafter.

8. The Board of Trustees shall by resolution order dividends to be credited to the depositors and payable at such times and at such rates as the Trustees may determine and as may be permitted by law. No interest shall be allowed on balances of less than \$5.00.

The Board of Trustees may, at any time, make such other rules and regulations as may be deemed necessary or appropriate, provided that they are not contrary to the laws of the State of New York, or to these By-Laws.

Copy of letter sent to 65 MORTON ST. Realty Corp.,
February 25, 1946: 310 E. 55TH ST - NYC

Dear Mr. Garlock -

I am enclosing a check in payment
in payment for the February rent.

As you undoubtedly know we have
spoken to Mr. Tice several times in
the past six months about the following
items:

1. Painting in the Kitchen and bath
2. Repairing bathroom walls.
3. Repairing and painting living-room
ceiling.

No repairs have been made or
painting done in this apartment
for 2 1/2 years.

Kindly give this matter your immediate
attention.

Yours truly -

Alfred Sarami (61)

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

March 28, 1943

Dear Mom,

I reached the New York Navy Station a few minutes after 8:00 and we left for Penn Station about a half an hour later. We got on a train at about 9:00 but the blasted thing didn't leave until 11:50. We were shut up in one coach and the heat was on full blast for about 4 hours. All of us lost about 2 or 3 pounds by the time we reached this place. Just after we got in the train we started a game of knock rummy with some other boys and I won \$7.50 and was off to a flying start on my naval career. As I said, the train left at 11:50 Wednesday night and we didn't get here until 7:30 Thursday morning. We couldn't get a lick of sleep because there wasn't enough room and we all looked like the last rose of summer by the time we got in. On the way, the train stopped at Bethlehem, Pennsylvania (the Bethlehem steel mills there are a huge and magnificent sight at night) Scranton, Pennsylvania, and a few other small towns. As soon as we reached this station, we were given another physical examination and then were issued our clothing, an imposing and confusing pile.

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 2 -

We are now settled down to a routine and we're kept busy as the devil all the time. Lights go out at 9:30 and we get up at 5:30. We also have a watch most of the time, between these hours -- either a two or four hour watch -- so we seldom get more than 5 or 6 hours of actual sleep. This training station, as I understand it, is the newest and largest in the country. We can only see a small part of it and that part is plenty big. The barracks we live in are brand new and we were the first company to occupy them. I have a bedroom all to myself with 109 other boys. We have double-decker beds with our own mattresses and sheets. The washrooms and showers are really nice and I take a shower every night and change underwear and socks at the same time, so I feel as clean all the time as I did when I was home, which counts a lot with me, as you know. There's an awful lot of discipline in the Navy and we have to keep ourselves and our clothes immaculate, which is also all right with me. We each have a puny little locker and we have to fit all our clothes into it just so and no different; you could swear it was impossible to do it but you do it and like it, because we have regular inspections by

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

-3-

officers and if there's a thread or a spot where it shouldn't be, it's too bad for you and I'm not kidding. So far I've kept my nose clean, but a lot of the other fellows were not so fortunate. Almost every second of our time, from the day we arrived until now, has been spent in drilling and working and the time flies. We have been given all sorts of tests such as swimming, strength, endurance, and intelligence tests. We're getting a series of injections for Tetanus and Typhoid, etc. which affect some fellows rather badly, but nothing to worry about. The food here is top grade food and it's served in a mess hall that holds almost a thousand men. There are very few fellows here that lack appetite andchow time brings out the vulture in all of us. This preliminary training or "boot training" that we're going through now is about the toughest part of the Navy and we all look forward about 2 months to the time when we will graduate. Our first night in camp I spent trying to snap several fellows of a bad case of homesickness. It's interesting to see how a person will react when he is suddenly taken away from civilian life and gets pushed around and ordered about and sleeps, perhaps for the first time, in a strange and somewhat strained atmosphere. Half of

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 4 -

The boys were hit quite hard by this abrupt change, but almost all have snapped out of it by now. The type of fellow that has difficulty in adapting himself is the one who cries most for mail and news of home and it's pitiful to see the look of disappointment on their faces when they don't get any. As for myself, I've had a great time from the minute I left New York until now, with all the prospects of enjoying myself more and more as I become less and less of a raw recruit and begin to learn something. It's a great feeling to be a part - of an organization like our Navy. With no ingratitude or disparagement intended, I would not trade my life here for life at home until the war is over and won. I don't worry about my being lonely because, if you have the right state of mind, being with strangers all the time will not cause unhappiness. Most of the fellows caught cold when they came here - - probably due to the change in climate - but so far I'm in perfect health, with all intentions of remaining that way till I'm finished. Please do not send me anything that I don't ask for. We can buy almost anything we want at our

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 5 -

"Ship's Service", which is like a general store, including candy, ice cream, newspapers, stationery, magazine, trinkets, cards, crackers, etc. They have movies and U.S.O. shows here quite often, but I don't bother with them, as I can have more fun in the barracks. We have access to a huge gymnasium with all new facilities, including a pool. Our barracks overlook a beautiful lake, Seneca Lake, and I look at it every day and wish I could be out on it. As a matter of fact, I'll be drilling in boats on it before long. If you find Seneca Lake on a map, you'll know where we're located. The nearest town is Geneva -- about 12 miles away -- and it's only a one-hour affair. We can't be far from the Seneca Ordnance Depot, as Alex will tell you. If our company behaves itself, we will have the privilege of going to town, but I doubt if we'll ever get there the way we're going now. I personally think we're stuck right here for the duration of our boat training. Either way, I don't give a h---. I sent my civilian clothes home by express and I suppose you've got them by now. They look as dragged out as I felt when we got off the train. I also mailed you a souvenir pillow case which I ask that you keep somewhere as a remembrance.

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 6 -

for me in my old age. I also sent you a card when I reached here and a package of photograph post cards, picturing the guesse and lot that is the lowly recruits. Speaking of sending things, there's one thing I wish you'd do for me. In my old desk in Electra's office -- top middle drawer -- you'll find a blue covered book entitled "Plane Trigonometry". At home somewhere, probably in the library, you'll find a blue and orange covered book entitled "a Mathematics Refresher". Please send me both of these books as I'd like to keep up on this stuff just for luck. That's all I want. One of the first things I did, when I had the chance, was to write Belle. You should expect a cable from her any day now, and when you get it, I wish you'd wire me here as I'd like to know whether I have a nephew or a niece. I'm going to write Ray as soon as I get a chance and I'll also catch up on some other correspondence. I've sent cards to all the neighbors and I'll bet that suffice for them for the duration, unless they write me back. I'll be disappointed if George hasn't sold at least 1,000 manhole assemblies by now, anyway tell him to keep plugging at George, by the way, would really

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 7 -

appreciate our lake here. It's about 40 mile long and the length varies. When the sun is out it sparkles and is ~~very~~ aquamarine in color; when it's not so bright, it's a beautiful deep blue and when I look at it from the drill field, every day I stare at it longingly and drool. There's generally a stiff wind up here and there's a regular surf beating against the shore. The waves are 2 or 3 feet high and the creamy white foam cascades down from the crest of each wave, making as pretty a sight as a sailor like me or a landlubber like George would want to see. I'm really in love with the lake and wish I could use my kayak up here, we can look right out of our barracks window at the ~~lake~~ ^{lake} and on the other side is freedom and civilization. I know there's plenty of us contemplating going A. W. O. L., but there's a stiff penalty for violation, especially that one; however you know your son, so don't be surprised if I come home in a striped suit. I see in the papers that rationing is just about hitting you and I feel sorry for you. I hope Alex used up my

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

-8-

shoe ration coupons. Speaking of the "Corps", Mom, please step on her every once in a while and see that she takes it easy. If necessary, make her sleep with her money bags under the bed instead of under the pillow. Maybe that's what keeps her up. Incidentally, don't mind the uneven change of thought in the letter and the lousy writing and botched-up appearance as I have been trying to finish this for 3 days. There's always some one of my moronic mates jiggling the table and my arm and already there's 6 bodies lying at my side because of that. I'd like to see Dickie in his Boy Scout uniform. Has George brought you any flounders yet? If not, he should hang his head in shame. Naturally, he won't do as well as I did but make allowances, Mom, for the fact that he's comparatively new at the fishing game and hasn't me around to coach him along. Come to think of it, how will you get any tuna this year? I expect that Pop will go trotting down any Sunday now and take a crack at fishing himself. Tell him to get in a little for me too. I don't know

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 9 -

whether our lake has any fish in it, but even if it has, it doesn't do me any good. all the gold braid around here doesn't approve of the recruits breathing too often and I wouldn't have a chance to throw a line in. Getting back to our barracks, we have to keep it so clean you wouldn't believe a room that 110 fellows occupied could be so immaculate. When the officer comes around for inspection, there can't be as much as a piece of lint on the floor. You'd get a laugh^{out} of seeing me Luff my undies every night. We even have a laundry room in our barracks with hot and cold water and regular scrubbing basin. all in all, our barracks to the last detail are the nuts, and that's only one of the many differences between the Army and the Navy. Remember, Mom, when you write to Ray, an Army boy, don't make him feel bad -- after all the Army is on our side, too --; they're just the Army that's all, and it's just one of things that must be and the Navy will have to put up with them -- at least for the duration. Since I wrote the first part of this letter, I have

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 10 -

learned that our camp here is even bigger than I thought. It covers an area of 12 square miles, which ain't bad, and it's not completed yet. I can't get ahold of exact figures, but there's supposed to be over 50,000 boys here and more coming in every day. One other thing I wanted to mention before is that our company of 110 boys is under the command of a Chief Petty Officer, as are all companies here, and he is the nicest, fairest, and whitest bellow you'd ever want to meet. I don't mean he babies his men but he's just like a father to them, all the C. P. O.'s here seem to be swell ~~for~~ and everyone gets fair treatment all around. For your information a C. P. O. is like, or rather the equivalent of, an army top sergeant. To sum up: I'm in fine health; I'm happy and satisfied, but wish that my boot training was over as I can hardly wait to get into action. I expect to get a 7-day furlough in from 2 to 3 months. I don't know just when. Some Sunday I'll give you a ring, but don't wait around anytime for a call. Don't forget to go to plenty of movies, Mom,

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 11 -

especially French ones, and don't worry about
me in the least as I can take good care of
myself. I don't need money, in fact, I've
got more money ^{now} than when I came and I've
spent plenty. Love to Dickie, Alfred, Alex,
Pop, George, Etta and yourself.

William

PRINCETON UNIVERSITY
THE GRADUATE SCHOOL

HUGH S. TAYLOR
Dean

May 6, 1946

Princeton, New Jersey

My dear Mr. Sarant:

Your application for admission to the Graduate School was carefully considered. The enrollment in the Graduate School is limited and the number of applications has been abnormally large. Consequently your application had to be considered in comparison with others and not as an individual one. I regret to inform you that it will not be possible to admit you.

Sincerely yours,

Mr. Alfred Sarant
65 Morton Street
New York 14, N.Y.

Hugh S. Taylor

Dear Sir:

I regret to inform you that your name has not been placed on the list of accepted candidates.

The number of applicants for admission to the Graduate School greatly exceeds the number which can be accommodated and it has been necessary to refuse admission to some applicants who appear to be qualified to pursue graduate study.

I sincerely hope that you may be able to continue with your professional studies elsewhere.

Very truly yours,

B. A. Thresher

Director of Admissions

THE GRADUATE SCHOOL OF CORNELL UNIVERSITY

Dear Mr. Sarant:

Because of quota limitations, it is impossible for us to admit you to our Graduate School in the fall term of 1946-47. I regret we cannot admit you and hope you may be able to make satisfactory arrangements elsewhere.

If you wish to be considered for admission later and will notify us to that effect, we shall be glad to review your application. It would, of course, have to be considered relative to any other applications pending for the term in question.

Faithfully yours,

G. Watts Cunningham
Dean

BOOK CREDIT BUREAU

POST OFFICE BOX 186

NEW YORK 18, N. Y.

CANAL STREET STATION

Dear Friend:

Your name has been turned over to this Bureau by the BOOK FIND CLUB. We are informed that there is a balance due on your account with them, in the sum of \$2.70 covering two books.

We are advised that the Club has written you on several occasions asking that you remit the sum due, but to date it has not been received by them.

Since you voluntarily assumed the obligation of membership, it is expected that you will live up to the terms of your agreement and make payment for the books you have accepted.

Therefore, we are notifying you now that your account has been placed in our hands, because we are certain you will want to clear this matter before we are forced to take further action.

Please use the enclosed postage-prepaid envelope in making reply to this letter.

Very truly yours,

Doctor William McLean,
Dep't. of Elec. Eng'g.
Graduate School,
Polytechnic Inst. of Bkln.

Dear Dr. McLean,

You may recall my having spoken to over the telephone last week. At that time, I requested a change of grade from ~~ABropped~~Dropped - Because of Business Travels" in the course "Fundamentals of Television Engineering" which I had started in the Fall of 1944. This letter will serve to verify that conversation.

Inasmuch as it is very difficult to contact you by telephone, I would appreciate a postcard from you when you submit the grade change to the Registrar's office. I have enclosed the appropriate form for your use, in case you have none at hand. Please accept my thanks for your kindness in this matter.

Cordially yours,

Alfred Sarant,
65 Morton St.,
New York, 14, N.Y.

June 5, 1946

Professor Ernst Weber, Chairman,
Graduate Electrical Engineering Dep't.,
Polytechnic Institute of Brooklyn,
Brooklyn, New York.

Dear Professor Weber,

In the school year 1944-1945, I commenced your course entitled "Advanced Circuit Theory". After several months, my attendance was interrupted and finally stopped by a series of extended business trips to Detroit for the Western Electric Company by whom I was employed at the time. Because of the uncertain time and duration of these trips, I failed to notify you of intention to drop the course, and hence received an "Incomplete" for the course.

I have recently applied for a fellowship at Cornell University Graduate School and am desirous of presenting as clean a record as possible. For this reason, it would be ideal if you could change the "Incomplete" mark to: - "Dropped - Because of Business Travels". Such a change can be effected, I have been informed at the Secretary's Office, by your filling out one of the attached cards.

If you decide to honor this request, a postcard from you informing me of your action will be greatly appreciated. It may be relevant to inform you that I completed two other of your courses - "Electromagnetic Theory" and "Higher Mathematical Analysis" with marks of A and B.

Cordially yours,

Alfred Sarant,
65 Morton St.,
New York, 14.

December 9th, 1946

Joseph King, Collection Manager,
Book Credit Bureau,
Post Office Box 186,
New York, 13, N.Y.

Dear Sir,

I received today with considerable surprise and disappointment a dunning letter from you indicating that there is a balance of \$2.70 due on my account with the Book Find Club. To the best of my knowledge and belief, I have paid promptly for every book which I ever received from the Book Find Club. Furthermore, I have in the past few years gotten about six new members for that organization

Please observe the following items of interest:

- 1) I have never received up to this time from either the Book Credit Bureau or from the Book Find Club any letter or other indication of an arrears in my account.
- 2) On October 1 st, 1943 I moved from 98 West 34th St, Bayonne to 65 Morton St., New York, notifying both the Book Find Club and the Bayonne Post Office.
- 3) The present address at which I have been receiving Book Find books is: 422 Eddy Street, Ithaca, N.Y. Any correspondence should be addressed there.

Please let me know the titles of the two books that are alleged to have been sent to me and not paid for and also the dates of sending them.

Yours Truly,

Alfred Sarant.

June 3, 1946

E.W. Waters -
Department 6250.

Dear Mr. Waters,

You may recall having written a letter of recommendation to Professor R.C. Gibbs of Cornell University, in connection with a possible fellowship for me in the Dep't. of Physics. Since that time I have been to Cornell and had interviews with members of both the Physics and the Mathematics Departments. The upshot of these interviews was that I stood a fair chance of getting into the Physics Department but that it would be wise to make a separate application to the Mathematics Department.

I have enclosed with this letter a set of applications which need the signature of one who will vouch for my character. It would help me very much if you would have these signed and return them to me by company mail.

Cordially yours,

Alfred Sarant,
Dep't. 2721.

Ext. 2196

April 30, 1946

Dr. R.E.Kirk
Dean of Graduate School
Polytechnic Inst. of Brooklyn

Dear Sir,

In 1943 I enrolled at Polytech. and started to work towards an M.E.E. degree. I completed 12 credits in '43-'44 with two A's and two B's. In '44-'45 I enrolled for an additional 12 credits, but after attending perhaps 8 weeks of class, I was sent on a series of business trips by my employer, the Western Electric Company. These trips were in connection with the radar projects which I was working on and were important to the war effort. Since I had no way of foretelling the occurrence or duration of the trips, I dropped only one course at that time, hoping to be able to continue the other two courses. As it developed, I was unable to do this. However I failed to notify formally my teachers. One of the teachers gave me an 'Incomplete' and the other gave me an 'F'.

I would like to request that this 'F' be changed to an 'Incomplete' or that both courses be shown as 'Dropped'. In any event let the reason be shown as "Necessity of Business Travel". I hope you will agree with me that such a change of the record would make clear the underlying facts.

Inasmuch as I must submit a copy of my record in connection with an application for a research assistantship, your prompt action on this matter would be gratefully appreciated.

Yours truly,

Alfred Sarant,
65 Morton St.
New York, 14.

called Elizabeth Smith

Sec. of Graduate School

*THURS. He agreed to
write letter correcting the F.*

PRINCETON UNIVERSITY
The Graduate School

Princeton, New Jersey

My dear Sir:

The Graduate School at Princeton has normally been operated on a strictly limited quota basis with a maximum of 250 students. At the present time the number of students admitted is considerably in excess of this figure and several departments, notably mathematics, physics and chemistry have enrolments which are more than double the normal quota. Admission, in the immediate future, in many departments of the University can, consequently, only be extended to students whose previous record is of distinctive excellence. If, in view of these circumstances, you still wish to be considered for admission, could you so inform me and, as a basis for consideration, send me a transcript of your academic record and any supporting documents which would help to establish your qualifications for admission to a department which you should specify.

Sincerely yours,

HUGH STOTT TAYLOR

Dean of the Graduate School

Graduate School
Princeton University,
Princeton, N.J.

Gentlemen,

In the list below I have itemized without going into detail certain salient points regarding my education and professional experience:

1. Personal: 28 years old, married, white, protestant.

2. Education:

a) Hempstead High School, 1936, Pi-Mu Epsilon Mathematics Award.

b) B.E.E. degree from Cooper Union Institute of Technology, 1941; 3rd place of over 1000 on entrance examinations; 5th place in graduating class of 12.

c) Graduate courses at Polytechnic Institute of Brooklyn, 1943, Electromagnetic Theory (Ernst Weber)
Higher Mathematical Analysis (R.M.Foster)
Vector Analysis
Functions of a Complex Variable
Average Grade, A-

d) Home study in; Matrices (Wedderburn)
Physics (Ruark and Urey)
Relativity (Carmichael)

3; Professional Experience:

a) One year as Jr. Radio Engineer working on U.H.F. Radio Direction Finders at the U.S. Signal Corps Laboratories.

b) Three and one half years as Electrical Engineer on eight Radar projects at the Western Electric Co.

c) One year on U.H.F. transmitter development at the Bell Telephone Laboratories.

I would greatly appreciate your appraising these qualifications and informing me whether they warrant my applying for admission to your school. It is my intention to take a leave of

absence from my present employer and commence graduate work this Fall leading to a Doctorate in either Physics, Mathematics, or Electrical Engineering, in that order of preference. I would be willing to either study full time or do a certain amount of research work or teaching.

If you recommend my submitting an application, kindly enclose with your reply, an application blank, a catalog, and information as to the relative number of openings both for study and for work in the three departments I have named. If you do not recommend my submitting an application, will you please indicate, within the limits of professional ethics, the reasons which obtain.

Yours truly,
Alfred Sarant.

65 Morton Street,
New York, 14, N.Y.

April 23, 1946

Registrar, Graduate School.
Polytechnic Institute of Brooklyn
Brooklyn, N.Y.

Dear Sir:

I am pleased to enclose with this letter a check for \$62.50 to complete payment for my tuition of the school year, 1944-1945. I deeply regret having been forced by the necessity of extensive business travelling to drop the courses which I was taking at that time and I would like to request that this reason be noted on my official school record. Verification of the business trips may be had by writing to my former employer:

Western Electric Co.
529 West 42nd St., N.Y.
Att: Mr. L.L. Anderson

Please accept my thanks for your consideration in this matter.

Yours truly,

Alfred Sarant

Tennis Stars Win Matches

By GAYLE TALBOT

Forest Hills — (AP) — Up to this point, the national tennis championships have proved nothing except that this country, coming out of a war, doesn't possess a great amateur player of the type that dominates the court from the moment he sheds his jumper.

The last such player was Donald Budge, who turned pro.

The best appears to be Jack Kramer, a tall, angular specimen with a blond crew haircut. The popular prediction today, as the title matches went in to the fifth day, was that Kramer would meet Frankie Parker, the not-so-young defending champion, in a final match next Sunday.

Tuesday, Kramer had everything he could do to eliminate Edward Moylan, an unknown from Trenton, N.J., 6-4, 6-4, 6-4. Billy Talbert, another team member, was carried to 6-4, 6-4, 6-4 by one Earl Cochell of Los Angeles. Parker trimmed Harry Likas Jr. of San Francisco, 6-0, 6-2, 6-3.

Bob Falkenburg, champion from the University of Southern California, reached the quarterfinals Tuesday with a 6-4, 6-4, 6-3 win over Budge Patty.

Bob tackles Billy Talbert, the Davis Cup player, in the quarterfinals.

Today's fourth-round matches pit Frankie Parker, two-time champion, against Seymour Greenberg of Chicago; Tom Brown Jr. of San Francisco vs. Herbert Flam; Gardner Mulloy vs. Norman Brooks of San Francisco and Pancho Segura of Ecuador against Alejo Russell of the Argentine.

Gomez to Hurl For Triplets

By the Associated Press

Vernon (Lefty) Gomez, undefeated World Series star of the New York Yankees in the 1930's, is going to try his luck on the mound again.

The manager of the last place Binghamton Triplets of the Eastern League announced Tuesday night that he would hurl for his club in the final game of the season Sunday.

"El Goofy," who pitched a game or so in Venezuela last winter, will have no soft touch in his Eastern League debut. The Triplets play the Champion Scranton Miners.

Meanwhile, the battle for the three playoff spots behind the Miners tightened in the final five days of the season. The Elmira Pioneers move into Albany for six games, starting with a double header tonight, in their final bid for a place in the first division.

The Senators are in third place, 2½ games ahead of Hartford and four games up on Elmira.

The Wilkes-Barre Barons retain second place, a game to the good on Albany and 20½ games behind Scranton.

came back to score twice and beat Stubby Overmire who pitched to only two batters, but allowed two hits.

Cleveland climbed into a fifth-place tie with Chicago on a double win over St. Louis, 5-3 and 7-3. Lou Boudreau had to use Bobby Feller on relief to save the opener.

The New York Yankees, Boston Red Sox, Philadelphia Athletics and Washington Senators were not scheduled in the American and St. Louis and Cincinnati were idle in the National.

CITY BUS SCHEDULES

EFFECTIVE SEPT. 4, 1946

CAYUGA HEIGHTS AND BRYANT PARK

Up trips to the corner of Highland and Upland Rds. will leave State and Cayuga Sts. via Eddy St. at 7:40 A.M. and via Bryant Park at 12 noon, 4:30 P.M. and 5:20 P.M. An added trip on school days only will leave Senior High School at 8:30 A.M., going directly up University Ave.

Down trips to State and Albany Sts. will leave Highland and Upland Rds. via Eddy St. at 9 A.M.; via Bryant Park at 1:20 and 4:55 P.M.; and via Stewart Ave. at 5:50 P.M. Added trips on school days only will leave Highland and Upland Rds. at 9 A.M. and 4:15 P.M., going down via Stewart Ave. to foot of State St. hill.

On Saturdays and school holidays, the 7:40 A.M. Cayuga Heights bus will go up via Bryant Park instead of via Eddy St., and will leave on the down trip at 8:05 A.M. instead of 9 A.M., going down via Bryant Park.

All above trips via Eddy St. or Bryant Park run via East, Thurston, Wyckoff and Highland Aves., The Parkway and East Upland Rd.; except that the 4:55 P.M. trip goes down Hanshaw and Cayuga Heights Rds. and Stewart Ave. to Thurston Ave., up Thurston Ave. to East Ave. and then downtown via Bryant Park.

TOWER ROAD AND BRYANT PARK

Trips on Tower Rd. leave State and Plain Sts. at 7:40 and 8:40 A.M., going up to the Dairy Building via Bryant Park. Down trips leave Dairy Building via Bryant Park at 8:15 and 8:55 A.M.; and via Eddy St. at 4:10 P.M. On Saturdays and school holidays, the 7:40 A.M. up trip and the 8:15 A.M. and 4:10 P.M. down trips are omitted.

None of the various Cayuga Hts., Bryant Park and Tower Rd. trips listed above are operated on Sundays and principal holidays. The usual 11:40 P.M. up trip to Cayuga Heights, however, will continue, seven nights a week, whenever there are any passengers. This trip runs via Highland Ave. instead of Wyckoff Ave.

STEWART AND EDDY

No change from present schedules, which are as follows:

On the Stewart Ave. and Eddy St. lines, the periods during which buses go up East Hill every 10 minutes, are as follows: Mondays through Fridays, 6:10 A.M. to 5:30 P.M.; Saturday, 6:10 A.M. to midnight; Sundays and holidays, 12 noon to 11:45 P.M. In the following periods, buses will go up the Hill every 15 minutes: Mondays through Fridays, 5:30 P.M. to 11:45 P.M.; and Sundays and holidays, 6:30 A.M. to 12 noon.

On the ten-minute schedule, Eddy buses go up from State and Cayuga Sts. at 10, 30, and 50 minutes after the hour, and Stewart buses go up on the hour and at 20 and 40 minutes after the hour.

On the fifteen-minute schedule, Eddy buses go up from State and Cayuga Sts. on the hour and half-hour, and Stewart buses go up at 15 and 45 minutes after the hour.

TIOGA STREET

No change from present schedules, which are as follows:

Trips to Stewart Park — Daily

Bus leaves State and Tioga at 10 minutes after each hour. First trip 7:10 a.m. Last trip 11:10 p.m.

Bus leaves Lake Inn at 20 minutes after each hour. First trip 7:20 a.m. Last trip 11:20 p.m.

Extra Trip to Stewart Park — Daily Except

Sundays and Holidays

Leaves State and Tioga at 7:30 a.m. Leaves Lake Inn at 7:40 a.m.

Trips to Falls Street—Mondays Through

Saturday

From 6:10 a.m. to 11:10 p.m. bus leaves State and Tioga at 10, 30 and 50 minutes after each hour, and leaves Lincoln and Tioga at 2, 22 and 42 minutes after each hour.

Trips to Falls Street — Sundays

From 7:10 a.m. to 11:10 p.m. bus leaves State and Tioga at 10 and 40 minutes after each hour, and leaves Lincoln and Tioga at 23 and 53 minutes after each hour.

Re: File No. A 13-(3)(660d)

Attention: MR. J.M.FLUKE

Gentlemen:

This is in reply to your letter of June 8, 1945, requesting clarification of several points concerning the theory of our suggested method for voice transmission over a beam of light.

We have made a number of fundamental experiments, proving to our complete satisfaction, the practicability of our system. As stated in our original letter to you dated March 19, 1945, we have been unable to fabricate a model of this system, due to our inability to secure necessary laboratory and model making equipment. With Navy Dept. sponsorship, we will be able to proceed at once, with the development of this model.

The experiments referred to in the above paragraph, and our analysis, centered about a determination of the modulation index obtainable with an audio power input of approximately 10 watts. As a result of these experiments, we have concluded that it will be possible to secure a modulation index of 2 or greater. Our unique drives, plus the use of the finest possible gratings will insure a substantial frequency deviation from the carrier.

Regarding your observations concerning frequency shifts of light-transmitted signals, we believe noise from this source will be relatively negligible. These shifts, to be significant, would have to be of the order of magnitude of the deviation produced by the audio signals, and with the modulation index contemplated, this does not seem likely to be a serious problem.

In conclusion, we wish to emphasize our sincere desire as citizens and experienced, graduate engineers, to devote our energy to the successful completion of this project, which we are sure will give our country a valuable war weapon.

Very truly yours,

Alfred Sarant

AS/vg

ADDRESS NAVY DEPARTMENT,
BUREAU OF SHIPS

Section 660E-9

REFER TO FILE NO.

A 13-(3)(660E-9)

NAVY DEPARTMENT

BUREAU OF SHIPS

WASHINGTON 25, D. C.

Mr. Alfred Sarant
65 Morton Street
New York 14, New York

13 JUL 1945

Sir:

With reference to your letter of 27 June 1945, an analysis of the system you propose indicates the following points that will require explanation:

(a) Using ten watts of audio power, and assuming a modulation disc of .010 inch plastic of 12 inch diameter, a modulation index of two is obtainable only if the above disc size is not exceeded, and if approximately 30000 radial lines are included in the grating.

(b) This number of lines on the modulation disc would require a speed of 40 rpm to attain a 20000 cycle carrier frequency from the carrier disc shutter. It appears likely, considering the best constant speed motors obtainable, and the high gear reduction required to obtain 40 rpm, that this carrier disc shutter could not be made to rotate at close enough to constant speed but that an appreciable frequency modulated signal would originate from this cause.

The Bureau appreciates your earnest desire to prosecute this project to a successful conclusion and application in the present war. However, the fundamental character of the investigations conducted to date do not warrant the undertaking of this project by the Bureau. Should you decide to exploit this development to the extent of building an operating model, it is desired to witness and discuss the operation of this device when completed.

Sincerely yours,

A handwritten signature in dark ink, appearing to read 'R.E. Cronin'.

R.E. Cronin

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 2 -

I have a choice bit for you. Part of our training is a short course in "Judo". Judo is supposedly a cross between wrestling and jiu jitsu. In other words, its trick hand-to-hand combat. We've learned a few very useful throws and holds and some day I'd like to bellow through, because, as you know, size or weight doesn't mean a thing with this type of fighting. I've thrown bellows weighing 200 lbs. as easy as pie. I only have one fault to find with the course and that is the fact that they only give you a superficial course instead of a complete one. The way it is now, you learn the fundamentals, but it takes months of practice until you reach the point where you would actually use your knowledge with confidence in actual warfare. Still, any thing we learn is helpful and I'm absorbing everything I can. The first day we tried judo, we all came out half-crippled. A stock phrase with us now is, "If you don't lay off, I'll use judo on you!", another thing that put us out of commission for a few days was a series of tough exercises, unknown to you & Truly and all of the other bellows. They must have been selected with fiendish care just for their gruesome

U. S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

-3-

qualities. Boy!, they really tore us apart and I don't mean maybe. Our physical instructor is a bull-blooded Indian named Choctaw. He used to be a professional boxer and strong man. He is our judo instructor, too, incidentally, and he's a real tough customer and a bruiser all around.

If you know someone who's going into the service, perhaps yourself, and doesn't like to march, do him a favor and tell him to take the army. We Navy "boots" march so much, we make army privates look like deck workers. "Grand Illusion", starring William (Jean Gabin) Sorent. or the baffling case of the lost ballen arches or God, save our soles!, is a great work which I am about to complete and submit for publication. All civilians who expect to be ex-civilians in a short time, should read this.

Well, they tell us all the time here we have to talk Navy talk and act like sailors, even though we had less water than a desert prospector, so I'll list some of our choice bits of nautical nonsense and give you the writer's humble translation or definition as he sees it in actual contact with same daily. Please show to rest of family so they understand me.

U.S. NAVAL TRAINING STATION
SAMPSON, NEW YORK

- 4 -

- deck - blood (always clean)
bulkhead - wall (" ")
Irish pennant - a rag left where it shouldn't be
adrift - anything out of place (me, for instance)
knock off - shut up or stop (I hear this often)
sound off - speak, or recite "General orders"
gold braid - commissioned officer (this always sneered)
goldbricker - loafer
scuttlebucket - gossip (I can always keep something under my hat)
scrambled eggs - gold decorations on officers' caps (big legs)
"Hit the Deck" - get up (used to awaken certain poor souls
at 5:30 in the morning)
scivvy - undershirt
jersey - sweater
jumper - blouse
hush marks - service stripes (something I don't worry about)
boots - canvas leggings (never put upon all recruits)
S.D. - garbage detail (that's me)
swab - mop (also used to describe an undesirable)
chow - food (I'm unconvinced)
mess hall - place where they serve chow and shouldn't
Physical Training - legalized torture
"Over the Hill" - A.W.O.L. permanently (everyone's dream)
girls - what we never see any of
civilization - life that we left behind us

The above is only a partial list which will be supplemented at a later date.

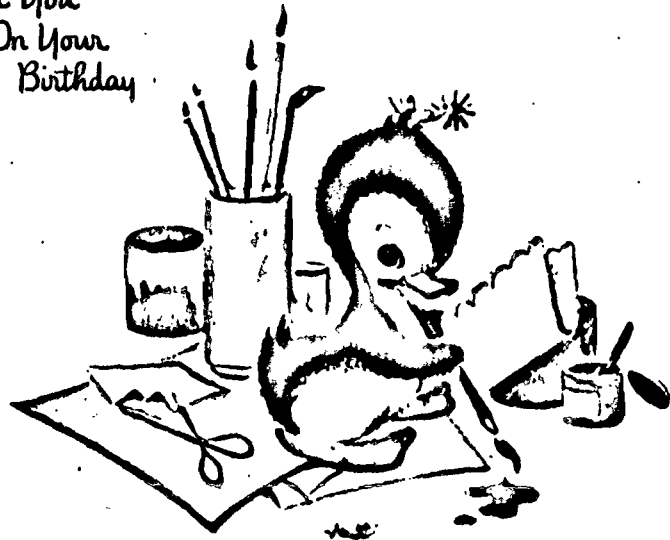

Any other news will be in previous letters so I'll knock off, al. Drop me a line and let me know how you're doing and whether Uncle Sam has got a search-warrant for you.

Love,

Willie

P.S. Write, or I'll use guns on you when I get back.

For You
On Your
Birthday

I sure do wish that I was twins,

I really, truly do --

'Cause I could wish

this Birthday wish

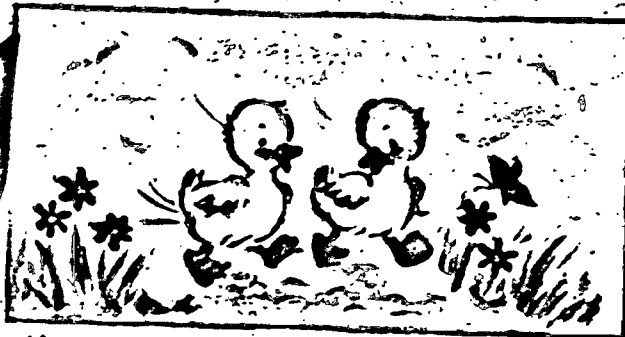

Just twice as hard for you!

HAPPY BIRTHDAY!

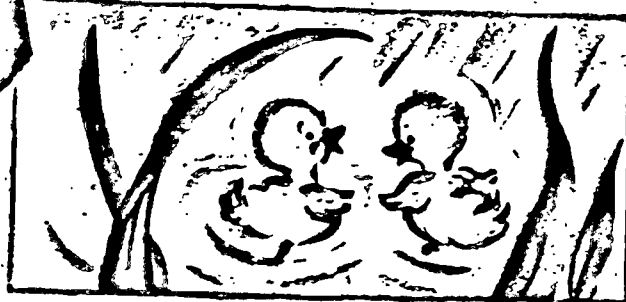

ALFATT-SWEEETIE -

I really hope that this birthday starts
off a wonderful year for you. AL MY LOVE.

Birthday Greetings to My Pal

*We have good times on sunny days,
When we can go out walkin'--*

*We have good times on rainy days,
Just sittin' round and talkin'--*

We have good times together

No matter what we do,

Sweetie,
And I'll just tell
the whole wide world
I'm glad we're
"me and you."

Happy, happy Birthday!
In my love and kisses,
Bonny Boy, and be happy
every day,

Dear Sir,

Your letter dated August 3, 1946, stated that, because of quota limitations, it is impossible for you to admit me to the Graduate School for the fall term, 1946-1947.

Please be advised that I would appreciate being considered for admission to a later term. Furthermore, should there be any last-minute openings for this fall term, I would like it noted that I am now an Ithaca resident.

You may contact me by mail at - 422 Eddy Street, Ithaca, or by 'phone at - Ithaca 2650.

Yours truly,

Alfred Sarant.

12 May 1946

Dear Al and Louise,

Your letter arrived - I cannot make myself realize the significance of the loss you - and I - have experienced. It makes one feel like there is no use in going any further. I can't believe it -

Every word, every expression, of the Friday evening at your house comes back in sharper detail. No small part of the words spoken were of encouragement and reassurance for my future - that no matter what I turned to I would make a success. Oh for that warm Latin heart! For ten years I have known it - and it will never, never, be gone or forgotten.

Were it my wish to fulfill I would be there with you - to help, if I could, in seeing thru these black and sunless days. I am ready, and ask that you do, call on me for help.

Love,

Jim

May 11, 1946.

Dear Alfred -

I called your apartment today and understand you went to Ithaca for the week-end. How are you and Louise?

We are getting along alright here - naturally, being so- self-sufficient - however, needless to mention that for all of us life has lost much of its flavor and questionable sweetness now that Mom is gone. Let us just say a "bitter milestone."

The immediate purpose of this letter is to advise that we had a letter from Ray today and he asks us to tell you that the current over there is 50 cycle and he will need a motor pulley for the record changer (Part No. 41P544-4). Will you please contact the shop where you bought the unit and see if they have the pulley. Please do this promptly and let me know so I can advise Ray what he may expect. If the shop doesn't have it in stock, will they order it - from Webster of Chicago, 3610 Bloomingdale Ave., Chicago 39, Ill.

As I recall you telephoned two or three weeks ago and told Pop you would be out the following Monday or Tuesday evening - we waited for you both nights - but no visitors - or telephone call. Pop seemed quite certain that you would come either of the two nights.

Alfred, I realize you are married, have your own personal life to live, are busy enough during the day and have a wide circle of friends - also that you cannot be construed a member of the family such as one of us living right here at home.

However, I'll make no bones in saying that I do think you should have at least telephoned once or twice during the past two or three weeks to speak to Dad - ask how he is getting along, etc. It is not necessary that you do this for either Bill, Dick or myself -

And I think that at least one evening's visit would not have been amiss. Aside from which we would all have enjoyed seeing you and Louise and having a little outside life in the house - at this very trying time. I fully appreciate that all of this must have been very distressing to Louise - she was very considerate of the circumstances - and you may have felt that it is too soon again to come out but of course we have, I think, got our emotions under control so there would not be any breakdowns of the first week to distress her. In any event a telephone call would have sufficed.

Pop has mentioned several times that you have forgotten him. Regardless of our past feelings - as you have yourself, pointed out to me - Pop is very forlorn, seems to have finally realized what he's lost and is now a sick man. He has been going to a local doctor - his blood pressure is up to 190 and he has been taking sedatives and is going for a heart examination Monday.

We've been doing our best to take his mind off his loss in Mom - having supper at home together each night and having him participate in little chores, etc. but it is not enough. We don't want him to feel that he has nothing to live for - you know how fond he is of you and Louise and one evening here with your guitar would do him more good than ten doctors and a thousand pills.

Out of love of Mom and her memory I know we will do all we can to make Pop happy. With the spring of real youth Bill and Dick will bounce back to Normalcy first, you next - George and I after that - then, Pop - in time. I feel as though I'd lost my inspiration with Mom gone - somehow or other I know I will never feel the old zest in accomplishment - of anything.

Please call Pop when you return from Ithaca and at least say "hello"

Love to you and Pass -

Elton

POLYTECHNIC INSTITUTE OF BROOKLYN
99 LIVINGSTON STREET
BROOKLYN 2, NEW YORK

DEPARTMENT OF MATHEMATICS

May 28, 1946

Mr. Alfred Sarant
65 Morton Street
New York 14, N.Y.

Dear Mr. Sarant:

On April 26th I wrote a letter on your behalf, addressed to the Director of Admissions, Graduate School, Cornell University; and at the same time forwarded the same material, on the blank provided, to Massachusetts Institute of Technology.

To-day I am sending a copy of that letter of April 26th to Professor Gibbs, as you requested, and also an additional copy to the Director of Admissions.

Cordially yours,

Ronald M. Foster
Ronald M. Foster

May 22, 1946

Professor R.M.Foster
Polytechnic Institute of Brooklyn.
Brooklyn, New York.

Dear Sir,

You may recall having spoken to me a number of weeks ago concerning my efforts to obtain a fellowship in physics or mathematics at Cornell University or at M.I.T. It might interest you to learn that I took a trip up to Cornell two weeks ago and had interviews with Professors Gibbs and Bethe of the Physics Department and with Professors Hurwitz and Kac of the Mathematics Department. As a result of these conversations, I may be able to obtain a fellowship in one of these departments for the Fall term.

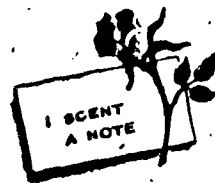

During the interview with Professor Gibbs, who is the head of the Physics Department, he called to my attention that your letter of recommendation had not yet been received at their Graduate School Office. Evidently, either your letter had been misplaced by them or through an oversight on your part (or the pressure of more urgent matters) had not been sent out. If you have not as yet sent out a letter but do intend to, it would be well to address one to:

Professor R.C. Gibbs,
Chairman of the Physics Dep't.,
Cornell University, Ithaca, N.Y.

and the other on the M.I.T. form to the address shown on the form. In any event, I would deeply appreciate your dropping me a postcard telling me what the status of the letter is.

Yours truly,

Alfred Sarant,
65 Morton St.,
New York, 14, NY

Music

Egon Petri, Pianist

Betty Sanders, Folk Singer

At Bailey Hall

In a program which (with the exception of the initial work) was completely 19th century, Egon Petri, pianist in residence at Cornell, was heard on Saturday night in Bailey Hall.

The "Capriccio on the Departure of His Much Beloved Brother" (with which Johann Sebastian Bach in his 19th year commemorated the circumstance of his older brother's (John Jacob Bach) entrance into the Swedish Guard as oboe-player) was Mr. Petri's gratefully-received, scholarly, inaugural nod to classicism.

Schumann's Fantasy Pieces, Opus 12, (1. Evening, 2. Soaring, 3. Why, 4. Whims, 5. In the Night, 6. Fable, 7. Dream, Visions, and 8. Epilogue) were, throughout, particularly noteworthy for the saliency of melodic line and the nebulousity of accompaniment backgrounds. It is the opinion of this reviewer that there are a fund of appealing details in this set (and still with careful avoidance of superficial sentimentality) that Mr. Petri's Saturday-night-mood did not encompass; however, a single listener's opinion is unimportant and certainly debatable.

The "Prelude, aria et final" of Cesar Franck, which dates from 1889, falling chronologically, therefore, into the Romantic Era, is in very fact an admixture of classicism and mysticism which, in every instance, reveals the elements of genuine greatness. Mr. Petri performed the work with nobility, dignity, musical and technical integrity which made of it the high-point of his program.

The Franz List group, with which the artist completed his program, was magniloquence personified. The Ballade No. 2, in B minor, attempts to express extremes in the possible ratio of a bolt of lightning to a barrel of molasses; the Legend No. 1, "St. Francis of Assisi Preaching to the Birds," is reminiscent of a certain Hollywood church wherein religion is expounded to the accompaniment of many singing birds hanging in cages, and the Legend No. 2, "St. Francis of Paolo Walking on the Waves," attempts to depict incredibly heavy seas miraculously stilled to lake-calmness through a tonal battle the violence of which could not possibly be exceeded. This group, which intrinsically could not be defined as anything but very bad music, was superbly encompassed (tonally and technically) by Mr. Petri and (perhaps disproving the soundness of the foregoing criticism) brought the demand for encores.

CHARLES GORDON WATKINS

At Willard Straight

Betty Sanders, singer of folk songs, presented a varied and felicitously performed program to a large and enthusiastic audience on Sunday afternoon in the Memorial Room of Willard Straight Hall.

The opening group, including "Mountains 'O' Morn" (Irish), "Cindy" (American), "Moun'ts" (Irish), "The Four Marys" (English-Spanish), "Jesus Gonna Make up Dyin' Bod" (Negro Spiritual), "Way from My Window" (English), "Go Away from My Window" (American), and "Mr. Mc" (Irish), found this charming entertainer to be in excellent form in the persuasiveness of her vocalized projections, drew a response from the interested audience.

The second proffered "Choucoumba" (Haitian - French), "The White Whistle" (Russian), "Cecelia" (Polish), "Schneiderlied" (Bavarian),

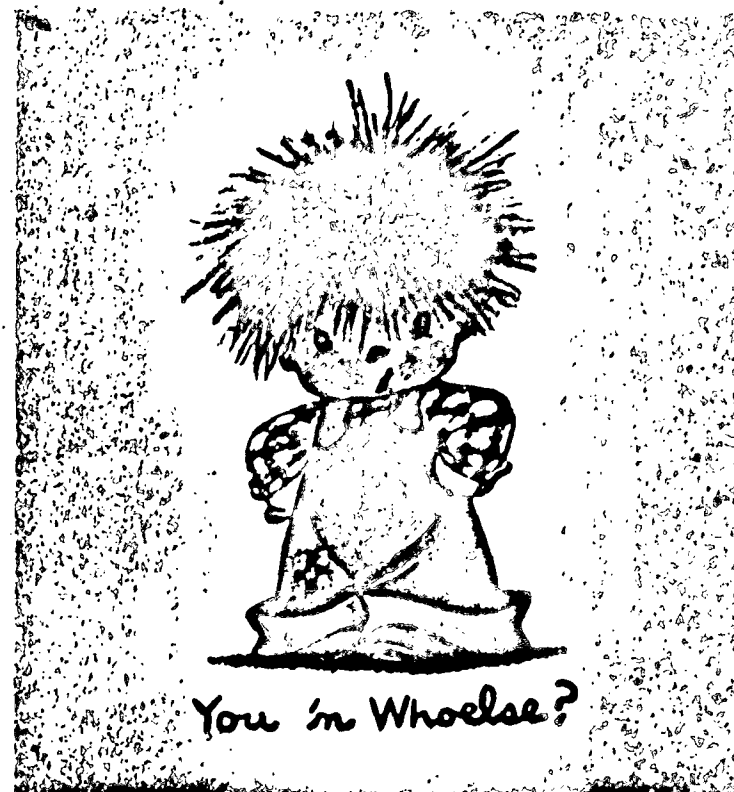

months, he explained no hope of being able to carry out a civil service examination, Deputy Nedrow will serve

had ample opportunity to display the expertness of her accompaniments as well as to leave a lasting impression of unusual aptitude in projecting a form of entertainment which is fast drawing large numbers of adherents.

CHARLES GORDON WATKINS

Appendix A.

The essential parts of a single ended phase modulator are shown in the schematic below. It is important to note that this modulator requires two pentode tubes.

Now it is easily shown that the admittance looking into the plate of the reactance tube is:

$$Y_{RT} = \frac{g}{1 + \tau^2} [1 - j\tau] \quad (\text{micromhos})$$

where $\tau = \frac{R}{X}$

We lump all the other admittances together and call them Y_o , where Y_o is predominantly capacitive. The following is a

$$Y_{RT} = \frac{g}{2} [1 - j]$$

Notice that for $E_a = 0$, $Y_{RT} = 1000 - j1000$ and also that Y_{RT} increases and decreases by equal ~~steps~~ steps as E_a goes positive and negative in equal steps. Y_{RT} is shown on the vector diagram below, the dots on either side of the arrow representing different values corresponding to uniform positive and negative ~~steps~~ steps of E_a .

Third we try to make the fixed admittance, $Y_F = \frac{1}{2} \times Y_{RT}$ (at $E_a = 0$)

When this is done, the total admittance, Y , swings symmetrically about its reference position, its swing on either side being the phase angle, θ . The upper limit of θ is plus or minus 45° .

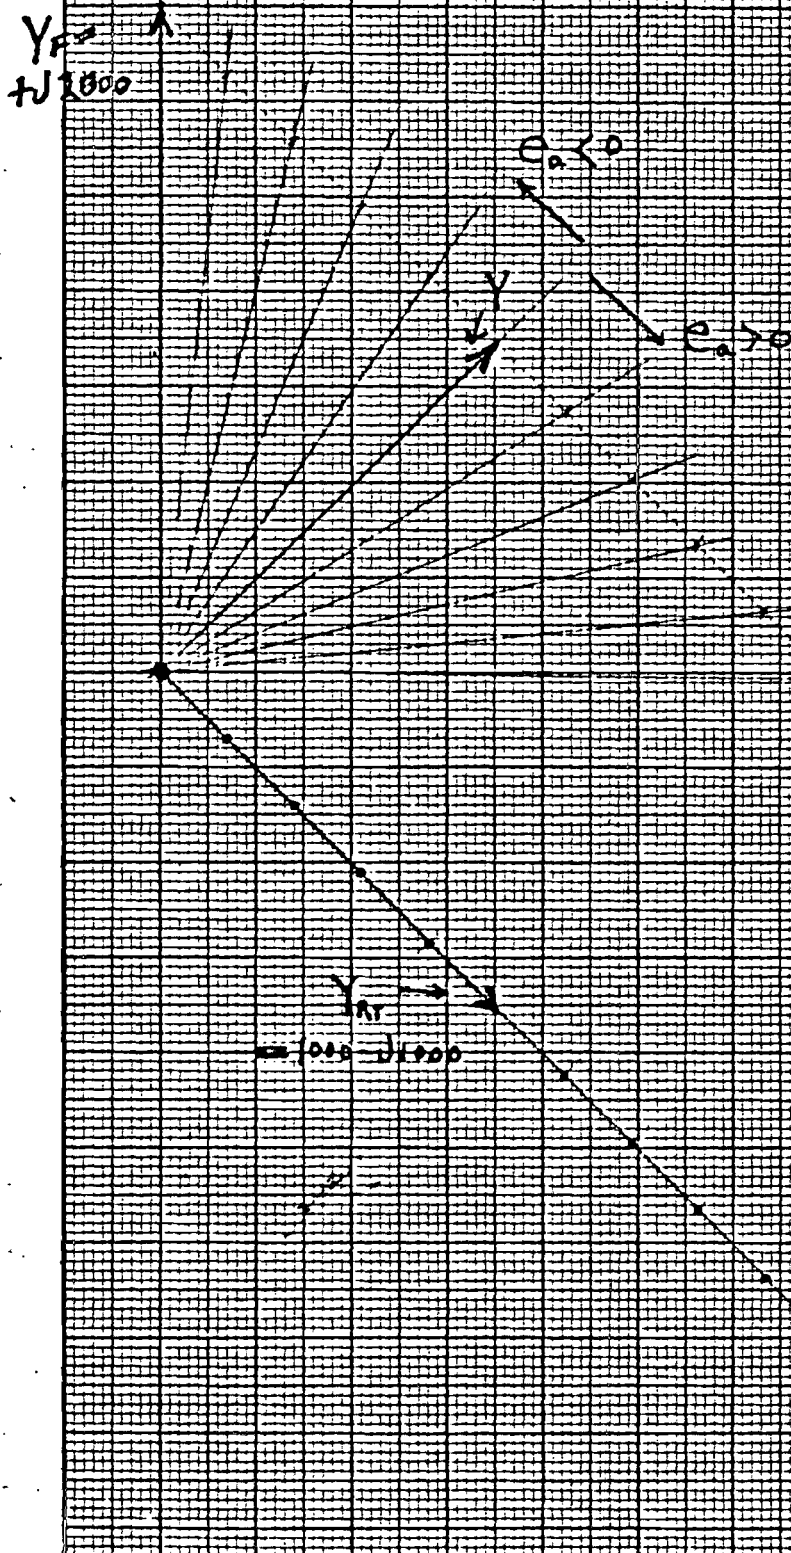

In order to make $Y_F = +j2000$ we

Let us now consider the design of a modulator using 3A4-type pentodes, and operating at about 4.5 Mc. First we select a set of operating conditions for the reactance tube such that the effective transconductance (g) versus grid bias is a straight line linear relationship and also such that the variation of g with r f. ~~an~~ input voltage is (at a given bias) is as small as possible. ~~Let~~ ~~us take for the operating~~

Suppose that in the case of a 3A4 we select a plate voltage of 150, a screen voltage of 90, and a grid bias of minus 9.5 volts. This gives a g of 2000 micromhos for ~~an~~ instantaneous audio voltage, E_a , equal to ~~an~~ zero.

Second, we select $R = X = 5000$ ohms, so that $r = \frac{R}{X} = 1$ and therefore

ISSUE	DR.	TITLE	BELL TELEPHONE LABORATORIES, INC.
	ENG. A. L.		

would probably have to add capacitance to the stray capacitance C . ~~Therefore~~
~~The~~ The normal admittance Y ~~is~~
is 1400 which corresponds to
700 ohms impedance. If the amplifier
tube has a ~~transconductance~~ transconductance of
2000 micromhos, the ^{net} gain will
be about 1.4

Instead of adding ~~the~~ capacitance
to the stray capacitance C to ~~bring~~ bring
 Y_F up to ± 2000 , it might be
better to reduce Y_{AT} by reducing

Dear Sir:

The enclosed summons to appear for jury duty was forwarded from my old address at 65 Morton Street to my new address in Ithaca, New York. Inasmuch as I am now an Ithaca resident, I am now ineligible for jury duty in New York County.

Yours truly,

Alfred Sarant.

1/23-47

Dear Alfred:

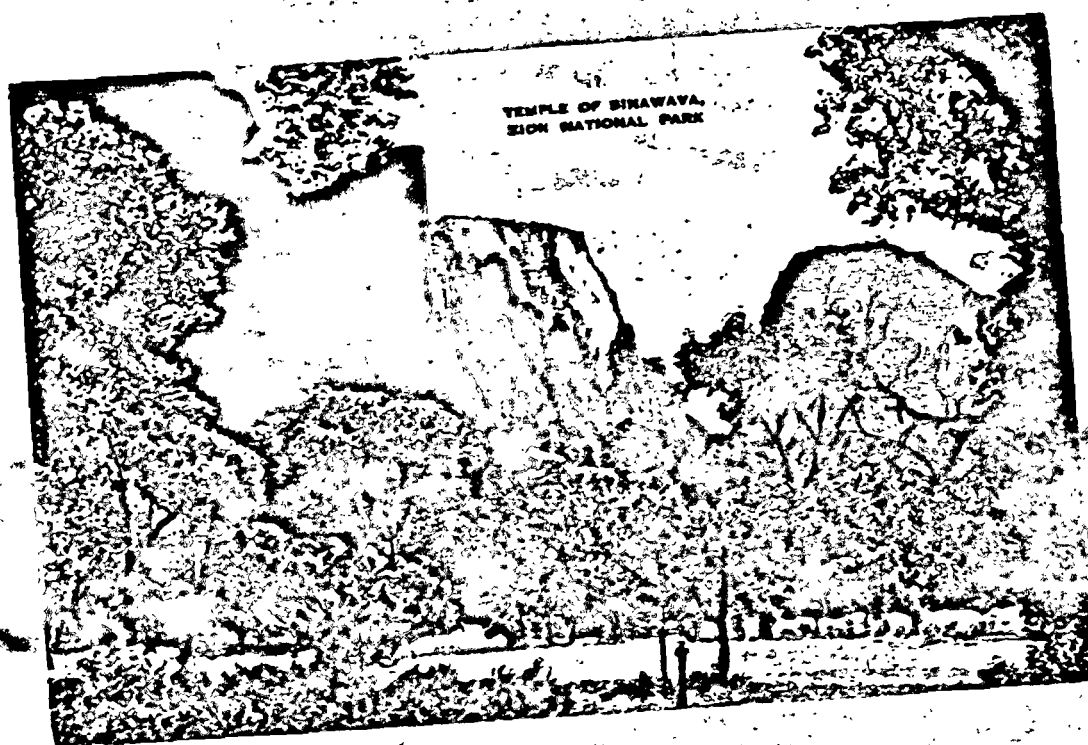

I just got a nice letter from Louise with a picture of the baby. He seems to be loved by this world! Is it possible that he finds it a little stupid? Ask him.

Alfred, I would like you to come down as soon as possible (your expenses will be paid by me) to help me straighten out Richard. I do not seem to be able to get an answer from him as to what he wants to do after graduating from H.S. When you come, may be you will be able to advise him as to what is best for him to do. Personally, I would like to have him sent to Ithaca.

Please make an effort to come and advise when you will be here.

With love to Louise and Baby

VICTOR K. D. ROSS

Ross Seeks Judicial Post

ITHACA — Victor K. D. Ross, Ithaca attorney, announced today that he intended to run in the Republican primaries for county judge. A member of the New York State Bar Association and a graduate of Syracuse University Law School, Mr. Ross has practiced law since 1924, both in New York City and Ithaca.

During his college years he was a member of the Syracuse University football, soccer, and lacrosse teams and was recently named on the All-time All-American lacrosse team. In recent years Ross has served with the Tompkins County Red Cross Chapter as a teacher of first aid.

Yesterday Henry J. Shirley, attorney here for 15 years, announced his candidacy for special county judge and surrogate. His entry in race for the Republican designation for this office creates a three-cornered contest with L. N. Simmons and Louis K. Thaler as the other contestants.

Shirley was graduated from the Cornell Law School in 1927.

Sheriff Clifford C. Hall who investigated the accident said that at about 2 p. m. Friday, Parker was kneeling behind his truck, parked at the side of Trumansburg road, near Ward's gasoline station, trying to jack it up to change a right rear tire. Bush, who came up in back of the truck, intending to pass, put on his brakes to allow a car coming from the opposite direction to pass. Bush's car hit a wet spot in the road, skidded around to the right and crushed Parker, the sheriff said. Bush by some undetermined means received an arm fracture and was taken to the hospital in the ambulance with Parker. Both men are under the care of Dr. Joseph N. Frost.

Victor Ross Enters Judgeship Race

ITHACA—Victor K. D. Ross Friday became the fourth candidate to announce his intentions of seeking the Republican nomination for county judge.

A resident of Ulysses, he pointed to his 21 years of law practice in Ithaca and formerly in New York city as proper qualifications for the post. The county judgeship includes work of surrogate and judge of children's court.

He was graduated from Syracuse university law school in 1924. During his college career he was a member of the varsity football, soccer and lacrosse teams. Recently he was named on the all-time All-America lacrosse team.

He announced that he had particular interest in the court's handling of juvenile cases and felt that the old attitudes and methods of many of our present children's courts do not serve the best interests either of the children involved or of the community. His aim would be to prevent juvenile delinquency and to rehabilitate, rather than to punish, children without any attempt to help the youthful offender to grow into a useful citizen, he said.

Other candidates for the nomination include Norman G. Staff, Charles H. Newman and Fitch H. Stephens.

Colasurdo, Cortland Yank, Promoted to Master Sergeant

Promotion to the grade of master sergeant has recently been awarded to Joe Colasurdo, son of Mr. and Mrs. Dominick Colasurdo of 8 E. Cortland

Parade Opening War Bonds

ITHACA—A parade of the Ithaca high school color guard of Boy Scouts will precede the rally to be held at 11 a. m. Saturday before the official opening of the loan drive in Tompkins county.

The parade will park at 11.10 a. m. on Cayuga st. to State st. to Thoga st. and to city hall. Following a parade in front of the city hall, the district attorney, Two Boys will present a seal. Melvin G. Corcoran read and present tribute to the city which has served in previous campaigns.

STEAK A five-pound steak will then be auctioned. Jack Deal to the top bid for bond. The steak thru contribution by six individuals.

Mrs. Jay P. women's division said in a statement of the city, "armed service ways women winning of the blue star seventh war loan."

"To enroll in each volunteer sell as many as to the greatest subscribers and rewarded the number of sales made."

ENROLL Each blue star recognized as a soon as self-advances step by general the title makes the largest in Tompkins county. Seventh war loan enrolls as a private the rank attained in.

No more than any one subscribe on any one blue star brigade one week must be additional subscription credited.

Every blue star sells war bonds to sons will be entitled ribbon pin beating. Thirty for women already with the Seventh opening next week to enroll in.

PTA Arranges Summer Round-up List

Schedule for the Summer Round-Up has been announced by Mrs. William L. Hellewell, general chairman, and Miss L. Grace Cotton, school nurse.

The Parent-Teacher Association in co-operation with the Board of Health annually sponsors these physical examinations for all boys and girls due to enter the first grades in the fall.

The schedule for each elementary school is as follows:

Fall Creek, 43 children, 9:15 to 11:15 a.m. Mondays, May 14, 21, and 28; Mrs. George Little, chair- man, telephone 3718.

Belle Sherman, 34 children, 9 to 11:15 a.m. Thursday, May 17, and Wednesday, May 23; Mrs. J. L. Heard, chairman, 6107.

East Hill, 25 children, 9 to 11:15 a.m. Thursdays, May 24, and 31; Mrs. Clarence Newberry, chairman, 2634.

South Hill, 14 children, 9 to 11:15 a.m. Thursday, June 7; Mrs. Ray Flumerfelt, chairman, 927A.

St. John, 34 children, 9 to 11:15 a.m. Mondays, June 4, 11 and 18; Mrs. Floyd Smith, chairman.

West Hill, 20 children, 9:15 to 11:15 a.m. Thursdays, June 14 and 21; Mrs. Harry Dunn, chairman, 31710 (neighbor).

Central, 47 children, 9:45 to 11:15 a.m. Fridays, May 18, 25 and June 1 and 8; Mrs. Augustus Shoff, chairman, 6082.

VAN ETEN

Van Eten — District Superin- tendent Benjamin A. Rowe, will have charge of the church service here at 11 a.m. Sunday, May 13.

The May meeting of the WSCS will be held May 16, when plans will be completed for the Mother and Daughter dinner to be held at the Community Place Wednes- day evening, May 23.

At the election of trustees for the local church Monday evening, T. J. Barfield and Monroe Den- mark were re-elected for three- year terms and Myron Daniels was chosen for one year to com- plete the unexpired term of the late Harry Bartholomew.

Mrs. Frances Kerr was a week- end guest of Mrs. Cora Murray, who recently opened her summer home here after spending the win- ter in Ithaca.

Mr. and Mrs. Bert Perrin, Mrs. Inez Dorn and Mrs. Eugene Shep- ard spent Thursday in Elmira.

Private First Class Toivo Wargo- lin was wounded in Germany and removed to a hospital in Belgium. Lawrence Barnes of the Navy is on leave with his parents, Mr. and Mrs. Theodore Barnes.

Salvation Army Official to Speak

1st Col. Edwin J. Perrett, divi- sional commander of the Salvation Army forces in Western New York, will participate in local activities at The Citadel this weekend.

A meeting of the board of direc- tors will be held at 8 p. m. Friday at the Citadel. Colonel Perrett will address the group giving a report on International Salvation Army operations. Five newly elected members of the board will begin their terms. They are: Miss Elsa Oberg, and the Messrs. Alfred G. Hall, Walter A. Johnson, Joseph A. Short, and Leonard M. J. Van Lent.

Colonel Perrett will present two sound films over the weekend. At the service at 8 p. m. Saturday the film "We Too Receive" will be shown. Another film, "No Greater Power," will be shown during the Sunday School at 11:30 a. m. Sun- day.

The colonel will speak at the Sun- day services at 10:30 a. m. and 8 p. m.

The public is invited to the serv- ices.

FREEVILLE

Freeville—Village Clean Up Day will be Saturday, May 26.

Mr. and Mrs. Robert Daniels of Varna, Mrs. Ruth Beach and George Monro attended the grad- uating exercises at Auburn City Hospital last Wednesday evening, when Miss Jean Beach graduated. Miss Beach has a position at Cor- nell Infirmary.

Mr. and Mrs. John Turk of Ith-aca were recent guests of Mr. and Mrs. Harry Manning and Clyde Manning.

Mrs. Marian Manning has re- signed as village clerk. Mrs. Helen Schultz has been appointed to fill the vacancy.

Mr. and Mrs. C. F. Monroe and Elroy Stanton attended the funeral of Fay Skilling in Ithaca Sunday afternoon.

Mrs. Robert Hughes and Miss Dorothy Van Arkel spent the week- end with their sister, Mrs. Grace Van Marter of Binghamton.

Mrs. Albert Blackman enter- tained the Y. M. Club Tuesday eve- ning.

William A. Myers returned Mon- day after spending some time at his camp at Cranberry Lake.

Mr. and Mrs. Thurlow Ash and daughter of Elmira Heights were guests Tuesday of his sister, Mrs. Lealie Blackman.

Mrs. Frank Burns and daughter of Ithaca spent Wednesday with Mrs. Burns' sister, Mrs. Elroy Stanton and Mr. Stanton.

Slaterville Springs

Slaterville Springs—Caroline Ma- sonic Lodge will confer the second degree on a class of candidates on Saturday evening, May 12.

Clubs

Mrs. Irwin Gunsalus and her baby daughter, Ann Marilyn, left Memorial Hospital Thursday for their home, 207 Delaware Ave.

Mrs. Mary Fodor of 117 Park Place has returned from Baltimore, Md., where she attended the graduation of her daughter, Miss Helen Fodor, from St. Agnes Hospital School of Nursing.

Lt. Vincent L. Schutt left today for Texas to pursue his studies as flying engineer on a B-28, after spending two days with his parents, Mr. and Mrs. L. H. Schutt of 109 Summit Ave.

Rummage Display Arranged

The Ithaca unit of the Republican Women's Club will sponsor a rummage display of wearing apparel and miscellaneous articles at the corner of Seneca and Plain Sts. from 9 a.m. to 6 p.m. Wednesday, May 26.

Book Club to Meet

The book club of the Campus Club will meet at 8 p.m. Monday at the home of Mrs. Clifford W. Barber, Ellis Hollow Rd.

Garden Club Invited

Members of the Ithaca Garden Club are invited to two out-of-town events, May 22. Mrs. Philip E. Horn, widely known authority on flower arrangements, will work and talk on the fundamentals of this subject before the Syracuse Garden Club from 10 to 11:30 a. m., and will arrange flowers from 1:30 to 2:30 p. m., at the Onondaga Hotel roof garden. Miss Dorothy Biddle will address the Skaneateles Garden Club on "Adventures in Table Setting" at the Kan Ya To Inn there at 2:30 p. m. Further details may be obtained from Mrs. A. W. Crowley, president of the Ithaca Garden Club, 5491.

Hadassah Meets

A mother-daughter program featured the monthly meeting of Hadassah at Temple Beth-El Wednesday evening. Mrs. Norman Epstein pronounced the invocation. Mrs. Morris Lewis, president, welcomed the daughters, and Miss Rita Samuels responded with a tribute to mothers. Miss Norma Newman played Tchaikovsky's "Concerto in D Minor."

Ross to Seek County Judge Nomination

Victor E. D. Ross, an Ithaca attorney, announced today he would seek nomination as county judge in the Republican primaries, July 21.

Ross is the fourth to aspire to the party's candidacy, the others being Norman G. Stagg, Charles H. Newman, and Fitch H. Stephens.

A member of the New York State Bar Association and a graduate of Syracuse University Law School in 1924, Ross has practiced law for 21 years in New York City and Ithaca. While at Syracuse, he played on the football, soccer, and lacrosse teams and was recently named on the all-time all-American lacrosse team.

He has served the Tompkins County Red Cross as a first aid teacher, is a past president of the Drome Bowling League, and has appeared in several plays produced by the Ithaca Community Players. Qualifications Cited

Speaking of his qualifications for the position, Ross said, "My long and varied experience with both the courts and the people are assets more vital now for a judge to possess than ever before. In the past 20 years, the two wars separated by the boom and the depression brought important changes in law and social attitudes."

The candidate, asserting that the entire fields of prevention and correction of juvenile delinquency had undergone fundamental changes, said, "The old attitudes and methods of many of our present children's courts do not serve the best interests either of the children involved or of the community."

Court Task Defined

"The major task of the children's court today is to join in the community's efforts to prevent juvenile delinquency and to rehabilitate, rather than to punish, children without any attempt to help the delinquent or youthful offender to grow into a useful citizen. The accomplishment of these aims is the goal which can and must be achieved, particularly in view of the possible community problems to be faced after the war is concluded."

Members of the Ross vacancy committee are William J. Davis, John J. Passman, Ipha P. Sitterlee, and Samuel J. Jolly.

"Ditton Park," one of Britain's noted moated manors, is serving in the war today. Used to house the Royal Navy's Comptrol Department, it accommodates a staff of scientists, navigators and skilled

THE NAME of Private Chris J. Chacona, U. S. Infantry, has been added to the list of Ithacans killed in action. He died in France Nov. 1. His wife, Mrs. Anna Brokaw Chacona, and son, John Chris, reside at 503 W. Seneca St.

Ithaca College Man Killed

Private Robert Way Smith, who was enrolled in the School of Health and Physical Education at Ithaca College in the fall of 1942, was killed in action in Germany, Apr. 11. He was the son of Mr. and Mrs. Ben D. Smith of RD 1, Newtown, Conn.

The soldier entered the Army in January, 1944, and was sent overseas in February, 1945. He was in action at the front only a month, acting as a scout for an infantry replacement unit.

Private Smith played freshman soccer at Ithaca College, and was in the "Student Scampers" musical show and Adelphi, freshman honorary scholastic society.

Commodity Forms Should Be Mailed

Applications for ration currency for any commodity should be made by mail to the Tompkins County War Price and Rationing Board rather than in person, it was said today by the Binghamton district Office of Price Administration.

Those seeking canning sugar were particularly asked not to telephone for applications but to obtain the necessary blanks and then mail the filled in forms.

Ithaca Men Slated For Induction

Selective Service Board 485 today announced the names of registrants who will be inducted into military service on Monday, May 21, at the Syracuse Armory induction station.

The board also reported that several men under 38 years of age had changed their occupations without the board's consent. This makes them subject to 1-A classification, the board pointed out.

Those slated for induction May 21 are:

Lawrence M. Tompkins, Newfield RD 1; Clyde D. Mueller, Camillus; Harold C. Orcutt, 105 DeWitt Place; Ralph E. Rose, Horseheads; Albert C. Walte, Wilson; Anthony P. Petrillose, 213 Mitchell St.; Paul E. Jones, YMCA; Stuart M. Duvall, New York City; Richard Miller, Ithaca RD 5; Peter Gimmarusti, 306 E. Lincoln St.; Claude V. Colleyacme, 212 Eady St.; Edwin M. Sawyer, manager of the Utica baseball club of the Eastern League; Dominic L. Zegretti, 609 W. Court St.; Malcolm L. Steinberg, Danboro, Pa.; John S. Sarkisian, Ithaca College basketball player; Richard E. Hubbell, Ithaca RD 5; and Robert L. Williamson, 305 Fairmount Ave.

REPUBLICAN VOTERS COMMITTEE

Vote! Vote! Vote! Vote!

Dear Patti,

June 5

Got your very frustrating postcard today. Why did you have to save lots of stories for me. It's too late now but why no letter? It's been two weeks today & there are a million things I wanted to know. However forget them, but keep calling my home. Mother will have a cable with my permanent A. P. O. Do that immediately or within two days or so.

New Lilly Story: Mom got a letter from my brother who was then off the coast of England. At the end he said that he'd stop writing because he & the fellows were having a bull session. Mother sent me a copy of the letter & at the end she asked me "Is a bull session some kind of a fight?"

I'm going to phone Josh tonight. Contact him for latest news.

How is Albritt? Please both write long & fully. I still love you both

P.S. On my way now to meet Joe & Dick in town. Ted.
